## AGENDA ITEM: 4

### SUMMARY

<b>Title of report:</b>	<b>ELECTOR / MEMBER RATIO OPTIONS</b>
Contact:	Jim Doyle, Senior Member Support Officer (ext. 2222) Daniel Boucher, Member Support Officer (ext. 2224)
Purpose of report:	To set out data comparing the ward models proposed by political groups.
Recommendations	That members consider the information presented and advise officers which model they would like to be submitted to the Boundary Committee for England.
Corporate vision/ objectives:	This report contributes to the corporate objective of becoming an “Excellent” Council, through seeking equitable representation and the appropriate Council size in the Borough.
Implications:	<b>Political</b> Equitable representation will improve resident’s access to decision-making at the Borough Council. A reduction in the number of Councillors will result in each Councillor representing more residents, and may involve each attending an increased number of meetings.  <b>Financial</b> Reducing or increasing the Council size may result in increasing or decreasing the total budget provided for members. However, this decision will need to be the subject of an Independent Remuneration Panel, and will not be made as part of the Periodic Electoral Review process.
Consultees:	Members have been asked to contribute their opinions through a brief questionnaire. Further opportunities for them, and the wider community, to input into the proposals to be submitted will be an important part of the Periodic Electoral Review process.
Background papers:	“Guidance and procedural advice for periodic electoral reviews” (The Electoral Commission, July 2002)

<sup>1</sup> The following roads were suggested to be moved from Adeyfield East into Adeyfield West to achieve a better balance: Highfield Lane, Larchwood Road, Widmore Drive, Berrymead, Tannsfeld Drive, Orchard Close, Dellcut Road, San Foin End, Connaught Close, Winds End Close, Ellingham Close, Tannsmore Close, Nicholas Way, The Grazings, Ellingham Road (part), and High Street Green Road (part).

However, this resulted in the relocation of 825 residents and did not achieve the equality anticipated. The wards have therefore been left as before, though movement of some of the aforementioned roads may still be undertaken to improve equality.

<sup>2</sup> The suggested use of the Crabtree boundary to balance the Apsley and Corner Hall wards did not achieve the result required. It involved movement of residents into Corner Hall, with worsening equality for both. It is possible to achieve a better balance between these two wards, if part of Corner Hall was moved into Apsley.

### **MODEL C (Liberal Democrat group)**

Note: the numbers modelled here differ from those given on the original Liberal Democrat proposal. This is as a result of variations in the method of estimating population. The tables below follow the same method as for Models A and B – whereby properties in a road are multiplied by a standard occupancy estimate to provide a population estimate. The original proposal used current occupancies from the electoral register to estimate population.
