Dear

### **HIGHBARNS CHALK MINE – CONTINUATION OF WORKS**

Following my letter of 22 April and the public meeting held on Thursday 4 July 2013, I can confirm that the Department for Communities and Local Government have approved an additional £2.9m funding to complete the works.

This means that the work can continue. It also means that we must progress with the next stages quickly so that the revised end date of November 2013 can be achieved. Consequently the contractors may not be able to provide you with the required two weeks notice before works are due to start but where there is a need for temporary relocation while works are carried out at individual properties they will give you as much notice as possible.

A revised timetable for the completion of the remaining stages will be provided in due course.

If you have any questions or concerns in the meantime, please do not hesitate to contact any member of the contractor's staff through the Community Information Centre at Highbarns or contact me directly at the number or address given above or by e-mail.

Yours sincerely

Shane Flynn  
Assistant Director (Project Governance)
