Dear Robert

**Community Infrastructure Levy (CIL) Draft Charging Schedule and  
Proposed Modifications**

Thank you for consulting us on the proposed modifications. We do not have any specific comments to make in respect of the proposed modifications.

We are pleased to see that 'Green Infrastructure' is included on the Regulation 123 List. Would you be able to confirm if river restoration projects could be considered within the scope/definition of Green Infrastructure? It's possible that river restoration projects could come forward in the future as a result of the next phase of the Thames River Basin Management Plan.

Yours sincerely

**Dawn Lloyd**  
**Sustainable Places Planning Advisor**
