</table>
| O-h2 | Land to the north east of Grange Road, Wilstone | Up to 42 homes. | Potential to also deliver:  
- 40% affordable homes.  
- Contributions towards wider infrastructure improvements for the village / wider area.  
- New open space.  
- Retention of allotments. |

These sites could provide a range of new homes and other supporting infrastructure, as summarised above. In some cases there is the potential for adjacent sites to merge together to form larger sites, or for only a smaller part of a large site to be chosen for development.

We would like your feedback on these sites to know if there are any alternative options you think we should consider.

We have not made any decisions on whether or not any of the above sites should be included within the new Local Plan. We will take this decision only when we have considered the views given through this consultation, talked further with infrastructure providers and landowners, and also carried out further technical work.
