<p style="text-align: center;">AMR 2007/06</p>	<p style="text-align: center;">Sustainable Community Strategy 2008</p>	<p style="text-align: center;">East of England Plan 2008</p>
<p>P.45, 8.6 and 8.7 - there are no major installations or schemes to provide renewable energy in Dacorum. The LDF will encourage renewable energy and policies will demand that new schemes offset at least 10% of carbon emissions through the use of on-site low or zero carbon energies.</p>	<p>P. 7 under 'Acting on Climate change' - We will work towards making Dacorum a carbon neutral community by 2021. Further encouraging statements towards reducing energy consumption.</p>	<p>Policy ENG1 - Carbon Dioxide Emissions and Energy Performance Encourage supply of energy from decentralised, renewable, low carbon sources. New development of more than 10 dwellings or 1000sqm of non-residential floorspace should secure at least 10% of their energy from decentralised and renewable or low carbon sources, unless this is not feasible or viable. Emphasis upon maximising opportunities through incentives, masterplans and development briefs to maximise potential to meet (and exceed) national energy targets, particularly in KCDCs.</p>
	<p>P. 9 Target 2 and 3 - reducing CO2 emissions and completing the Dacorum Environmental Forum Action Plan.</p>	
	<p>P. 11, Para 5 - Developing a green business park.</p>
