Community Infrastructure Levy
Charging Schedule

February 2015
Community Infrastructure Levy - Draft Charging Schedule

The Charging Authority
The Charging Authority is Dacorum Borough Council.

Date of Approval
This Charging Schedule was approved by the Council on 25 February 2015.

Date of Effect
This Charging Schedule will come into effect on the 1 July 2015.

CIL Rates
The rate at which CIL is charged shall be:

<table>
<thead>
<tr>
<th>Development Type</th>
<th>CIL rate (per square metre)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Zone 1: Berkhamsted and surrounding area</td>
<td>Zone 2: Elsewhere</td>
</tr>
<tr>
<td>Residential</td>
<td>£250</td>
</tr>
<tr>
<td>Retirement Housing</td>
<td>£125</td>
</tr>
<tr>
<td>Convenience based supermarkets and superstores and retail warehousing (net retailing space of over 280 square metres)</td>
<td>£150</td>
</tr>
<tr>
<td>Other</td>
<td>£0</td>
</tr>
</tbody>
</table>

Retirement housing is housing which is purpose built or converted for sale to elderly people with a package of estate management services and which consists of grouped, self-contained accommodation with communal facilities amounting to less than 10% of the gross floor area. These premises often have emergency alarm systems and/or wardens. These properties would not however be subject to significant levels of residential care (C2) as would be expected in care homes or extra care premises.

The Charging Areas
The Charging Areas are set out in the Community Infrastructure Levy Charging Area Map in Annex 1 of this schedule.

Calculating the Chargeable Amount
The Council will calculate the amount of CIL payable (“chargeable amount”) in respect of a chargeable development in accordance with Regulation 40 of the Community Infrastructure Levy Regulations 2010 (as amended). This calculation is set out in Annex 2 of this Schedule.

Zone 4: Identified Sites - Hemel Hempstead
ANNEX 2 – CIL CALCULATION

The CIL charge must be calculated in accordance with Regulation 40 of the Community Infrastructure Regulations 2010 (as amended). This states that:

40 - (1) The Collecting Authority must calculate the amount of CIL payable (“chargeable amount”) in respect of a chargeable development in accordance with this regulation.

(2) The chargeable amount is an amount equal to the aggregate of the amounts of CIL chargeable at each of the relevant rates.

(3) But where that amount is less than £50 the chargeable amount is deemed to be zero.

(4) The relevant rates are the rates at which CIL is chargeable in respect of the chargeable development taken from the charging schedule which are in effect –

(i) at the time planning permission first permits the chargeable development; and

(ii) in the area in which the chargeable development will be situated.

(5) The amount of CIL chargeable at a given rate (R) must be calculated by applying the following formula –

\[
\frac{R \times A \times I_P}{I_C}
\]

Where –

A = the deemed net area chargeable at area rate R, calculated in accordance with (7);

I_P = the index figure for the year in which planning permission was granted; and

I_C = the index figure for the year in which the charging schedule containing rate R took effect.

(6) In this Regulation the index figure for a given year is –

(i) The figure for 1st November for the preceding year in the national All-In-Tender Price Index published from time to time by the Building Cost Information Service of the Royal Institute of Chartered Surveyors or

(ii) If the All-In Tender Price Index ceases to be published the figure for 1st November for the preceding year in the retail price index.

(7) The value of A in paragraph (5) must be calculated by applying the following formula –

\[
G_R - K_R - \left( \frac{G_R \times E}{G} \right)
\]

Where

G = the gross internal area of the chargeable development;

G_R = the gross internal area of the part of the development chargeable at rate R;

K_R = the aggregate of the gross internal areas of the following –

(i) retained parts of in-use buildings, and

(ii) for other relevant buildings, retained parts where the intended use following completion of the chargeable development is a use that is able to be carried on lawfully and permanently without further planning permission in that part on the day before planning permission first permits the chargeable development.

E = the aggregate of the following –

(i) the gross internal area of parts of the in-use buildings that are to be demolished before completion of the chargeable development, and

(ii) the second and subsequent phases of a phased planning permission, the value E_x (as determined under paragraph (8)) unless E_x is negative,
(8) The Value of $E_x$ must be calculated by applying the following formula –

$$E_p - (G_p - K_{PR})$$

Where –

$E_p =$ the value of $E$ for the previously commenced phase of the planning permission;

$G_p =$ the value of $G$ for the previously commenced phase of the planning permission;

$K_{PR} =$ the total of the values of $K_R$ for the previously commenced phase of the planning permission.

(9) Where the collecting authority does not have sufficient information, or information of sufficient quality, to enable it to establish that a relevant building is an in-use building, it may be deemed it not to be an in-use building.

(10) Where the collecting authority does not have sufficient information, or information of sufficient quality, to enable it to establish -

(i) Whether part of a building falls within a description in the definitions of $K_R$ or $E$ in paragraph (7); or

(ii) The gross internal area of any part of a building falling within such a description,

It may deem the gross internal area of the building to be zero.

(11) In this regulation –

“building” does not include –

(i) a building into which people do not normally go;

(ii) a building into which people go only intermittently for the purposes of maintaining or inspecting machinery; or

(iii) a building for which planning permission was granted for a limited period

“new build” means that part of the chargeable development which will comprise new buildings and enlargements to existing buildings.

“relevant building” means a building which is situated on the relevant land on the day planning permission first permits the chargeable development;

“relevant charging schedules” means the charging schedules which are in effect –

(i) at the time planning permission first permits the chargeable development, and

(ii) in the area in which the chargeable development will be situated;

“retained part” means part of a building which will be –

(i) on the relevant land on completion of the chargeable development (excluding new build)

(ii) part of the chargeable development on completion

(iv) chargeable at rate R.
