Sewerage and Waste Water Infrastructure							
		<p>The reed bed solution was not planned to increase available capacity but to improve site resilience and reduce the risk of non-compliance. This solution is no longer being delivered however an alternative solution of dosing and alternative tertiary treatment will shortly be installed.</p>					
		<p>Borough wide – localised improvements/upgrades to sewerage infrastructure and network.</p> <p>Network upgrade plans will be prioritised as development comes forward. It is crucial for developers to engage early with Thames Water to ensure infrastructure can be aligned with new development.</p>	<p>To support new development</p>
