Site Allocations Pre-Submission document incorporating the Focused Changes. January 2016

Dacorum’s Local Planning Framework
Introduction

This is the Site Allocations Pre-Submission Written Statement incorporating the Focused Changes from the 2014 consultation. This document is to be submitted to the Planning Expectorate in January 2016 for approval to adopt as part of Dacorum’s Local Planning Framework.

### Notes

Significant Changes (denoted by an ‘SC’ prefix) and Minor Changes (denoted by an ‘MC’ prefix):

<table>
<thead>
<tr>
<th>Minor Change (MC)</th>
<th>Changes of a minor nature that are required to reflect amendments proposed or as a consequential change as a result of these amendments.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Significant change (SC)</td>
<td>Changes of a more significant nature that are required to reflect amendments proposed, or as a consequential change as a result of these amendments. Significant changes usually relate to the inclusion of a new proposal site or a more substantial change to the wording or boundary of a designation or proposal.</td>
</tr>
</tbody>
</table>
The changes themselves are shown in the text via strikethrough for deletions and underlining for new/revised wording. Changes to the Map Book are described in the text and shown in the form of ‘before’ and ‘after’ maps.

Editorial changes listed in Table 4 of the Report of Representations have been made to the text. They are not specifically identified as they do not form part of the Focused Changes consultation.

PART A

THE CONTEXT
1. **Introduction**

**Dacorum’s Local Plan**

1.1 The Site Allocations is the second of the documents that will make up the Borough’s new local plan. The first of the documents, the Core Strategy, was adopted in September 2013. The local plan is the collective name for a series of documents (known as Development Plan Documents or DPDs) that together will guide future development. Figure 1 illustrates the structure of the local planning framework.

**Figure 1: Structure of the Local Planning Framework**

1.2 The Core Strategy sets out the planning framework for guiding the location and level of development with the Borough over the next 20 years. It provides the context for the more detailed policies and site specific proposals contained within this Site Allocations DPD and other subsequent planning documents. Key designations are shown on the key Diagram (Map 2).

**MC1 (below)**

1.3 In addition to the Site Allocations, the following Development Plan Documents (DPDs) were originally proposed to help achieve the vision and objectives set out within the Core Strategy:

- Development Management Policies – supports the Core Strategy by setting out additional, more detailed planning policies that the Council will use when considering planning applications.
• East Hemel Hempstead Area Action Plan (AAP) – provides a detailed planning framework for the eastern part of Hemel Hempstead, whose regeneration is of particular importance to the wellbeing and prosperity of the Borough and beyond. The extent of this AAP within Dacorum is shown in Figure 22 of the Core Strategy and on Map 1. The extent of the AAP within St. Albans is to be confirmed. The AAP will contain planning policies and associated designations for the east Hemel Hempstead area.

1.4 Work on the Development Management DPD is now on hold and appropriate policies will instead be included within the new single Local Plan for the Borough. This new plan will also incorporate the early partial review of the Core Strategy, with a particular focus on assessing household projections, the role and function of the Green Belt affecting Dacorum and the role that effective co-operation with local planning authorities could play in meeting housing needs arising within the Borough. Progress on the Area Action Plan remains dependent upon the content and scope of St Albans’ emerging Local Plan.

Site Allocations

1.5 The principal role of the Site Allocations DPD is to set the Council’s detailed proposals and requirements for particular sites and areas. It:

• allocates sites for future development in the Borough;
• defines the boundaries of planning designations; and
• ensures appropriate infrastructure is identified and delivered alongside new development.

1.6 These designations and allocations are illustrated on the Policies Map (see below).

1.7 The Site Allocations DPD excludes consideration of allocations and land designations within the area covered by the East Hemel Hempstead Area Action Plan (see below). However, where the AAP contains important sites, these are cross referred to within the supporting text to ensure a comprehensive picture of sites and designations is provided for the Borough. The extent of the Site Allocation area is shown in Map 1.
1.8 Once adopted, these planning policies and associated designations will be used to determine planning applications, together with policies in the Core Strategy and relevant development management policies. Development management policies are currently provided through 'saved' policies of the Dacorum Borough Local Plan 1991-2011, which will be superseded by the Development Management DPD.

1.9 These DPDs will be supported by a series of Supplementary Planning Documents (SPDs) which give specific guidance on how the Council’s planning strategy and policies will be implemented for specific topics, areas or sites. Although they will not form part of the statutory development plan for Dacorum, they will be important considerations in the Council’s planning decisions.

1.10 Neighbourhood Plans, where adopted following a local referendum, will become part of the statutory development plan. The decision to prepare a neighbourhood plan will be a matter for the local community – either a town or parish council or neighbourhood forum. The Council will support local communities in preparing relevant neighbourhood plans and will adopt plans that are supported by local referendums.

1.11 The Borough’s new local plan will replace the Dacorum Borough Local Plan 1991-2011 (DBLP). The Core Strategy replaced part of the DBLP and the Site Allocations DPD replaces further elements. Those DBLP policies which are
superseded by the Core Strategy and Site Allocations DPDs combined are listed in Appendix 1.

**Policies Map**

1.12 The Policies Map (or Proposals Map as it was formerly called) illustrates the planning strategy for the Borough, by showing the boundaries of allocations and designations set by planning policies. It is revised as each new Development Plan Document (DPD) is adopted to ensure it reflects the most up-to-date strategy for the area. Some changes to the Policies Map originally published as part of the Dacorum Borough Local Plan 1991-2011 have already been made to reflect designations amended by the Core Strategy. It is now being revised further, and more significantly, to reflect the allocations and designations within this Site Allocations document.

1.13 Until a full updated version of the Policies Map is available, these changes are set out in the map book published alongside the Site Allocations written statement. The two documents combined comprise the full Site Allocations DPD.

1.14 In addition to changes made to the Policies Map as part of the wider plan-making process, some interim updating of the online interactive maps may also be required. This will only relate to factual changes to designations that are not defined by the Council. Examples may include any changes to the extent of the Chilterns Area of Outstanding Natural Beauty advised by Natural England, or additional Scheduled Monuments (SMs) advised by English Heritage. This will help ensure that the Policies Map remains as comprehensive and up-to-date a resource as possible.

**Consultation and Evidence**

1.15 The Pre-Submission Site Allocations DPD has been prepared following consultation with stakeholders and the local community, in line with the Council’s adopted Statement of Community Involvement (SCI). It has also been informed by consultation carried out on the Core Strategy. The main preparation stages are shown in Figure 2.

1.16 The Site Allocations has been based on a thorough understanding of the issues and challenges faced: a wide range of information and studies, collectively known as the ‘evidence base’, has been prepared. This evidence base includes a number background topic reports relating to each subject area covered by the Site Allocations and Schedules of Site Appraisals, which summarise and assess the suitability of development opportunities being promoted for allocation for housing and other uses.

1.17 The evidence base, together with links to the individual documents, is available online at [www.dacorum.gov.uk](http://www.dacorum.gov.uk).

1.18 The Site Allocations document has also had regard to national planning guidance contained within the National Planning Policy Framework (NPPF),
National Policy Practice Guidance (NPPG), other policy statements and good practice guidance.

**Sustainability Appraisal and Appropriate Assessment**

1.19 The policies and proposals in the Core Strategy were subject to formal Sustainability Appraisal (SA), carried out by independent consultants C4S. This Sustainability Appraisal incorporates Strategic Environmental Assessment (SEA), as required under European law. This process has continued for the Site Allocations DPD.

1.20 Sustainability Appraisal has been a systematic and continual process, assessing the social, environmental and economic effects of policy, policy wording, strategy and sites at different stages. All documents, from an initial Scoping Report (February 2006) through a series of Working Notes or Report associated with each stage of consultation, are included as part of the evidence base.

1.21 A separate Sustainability Appraisal Report accompanies the Pre-Submission Site Allocations. It explains how sustainability considerations have been taken into account and incorporated into the document. It also outlines how significant sustainability effects due to the implementation of the plan will be monitored. The Sustainability Appraisal Report is available online at [www.dacorum.gov.uk](http://www.dacorum.gov.uk).

1.22 The Council has assessed whether its development plan would affect sites of European importance for nature conservation, as required under national and European law\(^1\). One Special Area of Conservation, the Chilterns Beechwoods, partly lies within Dacorum. Screenings were undertaken in 2008 and 2011 as part of the Core Strategy to assess whether proposals would have any adverse impacts upon these sites, either alone, or in combination with other plans. No significant effects were identified. Both reports are available as part of the evidence base. The potential impact of the Site Allocations has been checked against these previous assessments and the conclusions form part of the Sustainability Report.

1.23 The Schedules of Site Appraisals (see section on evidence base above) have also been subject to separate SA/SEA. This has informed the site sifting process and decisions regarding which sites to take forward as proposals within the Site Allocations.

Figure 2: Stages in the Preparation of the Site Allocations

*Note: Please see Figure 2 in Core Strategy for stages in the preparation of that document.*
Summary of Content

1.24 The structure and content of the Site Allocations DPD broadly reflects that of the Core Strategy. Strategic Objectives from the Core Strategy are repeated at the beginning of each section. The content of the Core Strategy is not repeated, although necessary cross-references are made. Coverage of each section is outlined below:

1.25 **The Sustainable Development Strategy** – This section sets out the extent of key boundaries relating to the Green Belt, Rural Area, major developed sites in the Green Belt and individual towns and villages. These boundaries are important as they affect the approach to development that will be taken in different locations. In recognition of the increased role of ‘mixed use’ schemes within the Borough, a number of mixed use development sites are also identified. These will deliver a range of complementary uses as part of their development or redevelopment. Sites are also identified and protected for transport uses.

1.26 **Providing Homes and Community Uses** – One of the main functions of the Site Allocations DPD is to identify how specific sites will contribute towards delivery of the housing target, which is set out in the Core Strategy. Key housing sites are identified, detailed requirements set for the Local Allocations, and specific provision is also made for travelling communities. In order to ensure appropriate supporting infrastructure is provided to support residents and workers, a number of sites are specifically identified and protected for community and leisure uses and open land.

1.27 **Promoting Economic Prosperity** – A review of employment allocations and designations within the Borough has been carried out. This review has sought to ensure that sufficient good quality employment land is available to meet the Core Strategy’s employment targets (for offices and industrial, storage and distribution floorspace). The scope to reallocate some employment land for housing development has also been considered. This work has also sought to ensure the uses permitted in designated employment areas remains appropriate in terms of their character and current market demands and supports growth in local economic prosperity. Following changes in national policy on retail matters, the opportunity has been taken to update the Council’s approach to the main retail centres, and in particular to redefine the role and extent of protected shopping frontages within the Borough’s three town centres. The approach to the Borough’s more numerous local centres remains unchanged.

1.28 **Looking after the Environment** – Identifies designations relating to landscape, biodiversity and historic heritage that are illustrated on the Policies Map, updating these as necessary. Some designations are defined locally by the Council, in consultation with its advisers, whilst others reflect designations that are set at a national or European level.

1.29 **Place Strategies** – Individual strategies are set out in the Core Strategy for each of the Borough’s town and large villages and for the countryside. The Place Strategies within the Site Allocations DPD set out how these place
visions will be delivered by pulling together key allocations by settlement, rather than by use.

1.30 **Monitoring and Review** – Provides further explanation (in addition to that set out in the Core Strategy) regarding how sites will be monitored and any issues with delivery addressed.

1.31 **Appendices** – Provide more detailed information, including an updated schedule of superseded policies, a glossary and a revised housing trajectory.

THE STRATEGY
Site Allocations Pre-
Submission document incorporating the Focused Changes 2016
The Sustainable Development Strategy

Strategic Objectives

- To promote healthy and sustainable communities and a high quality of life.
- To mitigate and adapt to the impacts of climate change.
- To promote social inclusion and cohesiveness, embrace diversity and reduce inequalities.
- To enable convenient access between jobs, homes and facilities, minimise the impact of traffic and reduce the overall need to travel by.
- To promote Hemel Hempstead as the focus of the borough for homes, jobs and strategic services, reinforcing the role of the neighbourhoods in the town.
- To conserve and enhance the function and character of the market towns, villages and countryside.
- To ensure the effective use of existing land and previously developed sites.
2. Promoting Sustainable Development

Introduction

2.1 The Core Strategy establishes the approach to the broad scale and distribution of development within the Borough and sets out the main role and function of different areas through the settlement hierarchy (Table 1 in the Core Strategy). The role of the Site Allocations DPD is to add detail to this strategy, through the setting of specific boundaries and proposals, and ensuring that sufficient land is made available at the right time and in the right location. It is the role of the early partial review process (see paragraphs 29.7-29.10 of the Core Strategy) to look again at longer term needs and to take account of a whole range of Government policies and guidance, including those relating to housing and the Green Belt.

Identified Proposals and Sites

2.2 The Site Allocations document contains a series of schedules of proposals and sites. These are set out at the end of each relevant section. Each schedule entry has a reference number. The schedules include:

(a) Allocated sites - where development or redevelopment is encouraged in accordance with specified requirements, and
(b) Safeguarded sites - where key existing uses are protected, as they perform an important role which needs to be retained.

2.3 All proposals, sites and designations are shown on the Policies Map.

<table>
<thead>
<tr>
<th>POLICY SA1: Identified Proposals and Sites</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sites identified for development or redevelopment should be delivered in accordance with the requirements specified in the relevant schedule.</td>
</tr>
</tbody>
</table>

Safeguarded sites will be protected for their specified use(s) unless:

- (a) It is proven that there is no longer a need; or
- (b) Satisfactory alternative provision is made.

All identified proposals and sites, and other additional sites that come forward during the lifetime of the plan, must comply with relevant policies set out in the Core Strategy and with other relevant policies and guidance.
**Countryside and Settlement Boundaries**

2.4 The Core Strategy does not require a general review of the Green Belt boundary. However, in order to meet the strategic objectives and policies of the Core Strategy, boundaries of the Green Belt and Rural Area around existing towns and villages have been reviewed for minor anomalies. These changes will result in limited additions to, and deletions from, the Green Belt and Rural Area.

2.5 Appropriate new boundaries have also been defined for the Local Allocations (see Policies LA1-LA6). These sites will be removed from the Green Belt and become part of the town or village they adjoin. All Local Allocations are safeguarded through Policies SA1, SA8 and Policies LA1-6 and will be managed as open land until developed for their allocated uses.

2.6 These changes will ensure boundaries remain robust, take account of recent development and support delivery of appropriate development, in accordance with the NPPF.

See section 2 of the accompanying Map Book

**Small Villages in the Green Belt or Rural Area**

2.7 Boundaries of the small villages ‘washed over’ by the Green Belt or Rural Area designations (Core Strategy Policies CS6 and CS7) have also been reviewed for anomalies. The review has taken into account that these villages are recognised as areas of development restraint within the countryside. These anomalies are limited in extent and have arisen largely as a result of changes on the ground since the boundaries were last reviewed.

See section 2 of the accompanying Map Book

---

2 Policy CS5: Green Belt states that there will be no general review of the Green Belt through the Site Allocations DPD. A full re-evaluation of the role and function of the Green Belt will be carried out as part of the plan review, as specified in paragraphs 29.8 to 29.10 of the Core Strategy. The Local Development Scheme 2014-2017 provides further information regarding the timing of this review, and production of a new single Local Plan for the Borough.
Major Developed Sites in the Green Belt

2.8 Major Developed Sites (MDS) are identified in Table 2 of the Core Strategy. This designation recognises the contribution that large and well-established developments in the Green Belt can make to meeting local education, housing and employment needs. All of the defined sites are self-contained and benefit from relatively compact layouts. Any future development should be limited and opportunities taken to improve the relationship of non-conforming uses with the adjoining countryside and limit the sites’ impact on the openness of the Green Belt, and upon any other designations that may apply to a site.

2.9 Existing site boundaries have been reassessed and new sites considered for inclusion in line with the selection criteria in paragraph 8.31 of the Core Strategy. Minor changes have been made to the infill areas of the majority of sites, to reflect recent permissions and proposals. Outer boundaries for all sites (including the new MDSs at the British Film Institute in Berkhamsted and Abbot’s Hill School, Hemel Hempstead) are defined on the Policies Map, with both outer and infill boundaries shown in greater detail in Appendix 3.

2.10 Kings Langley School has recently received planning permission for a comprehensive redevelopment of its site and facilities. A new infill area has been defined based on the broad location of the new school buildings on the plans accompanying the planning application, whilst allowing for a degree of flexibility for future development.

2.11 The Major Developed Sites at Bourne End Mills and Bovingdon Brickworks are also designated as Employment Areas in the Green Belt (see Policy SA6).

POLICY SA2: Major Developed Sites in the Green Belt

The extent of the defined Major Developed Sites in the Green Belt is shown on the Policies Map. Areas of infill, where any new development will be concentrated, are shown in Appendix 3.

Proposals for development will be determined in accordance with Core Strategy Policy CS5: Green Belt, the planning requirements set out in the Schedule of Major Developed Sites and other relevant policies and guidance.

Schedule of Major Developed Sites

<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Location:</td>
<td>Berkhamsted Castle Village</td>
</tr>
<tr>
<td>Planning</td>
<td>Any future development should avoid encroachment into the western part of the site, to protect the open and semi-rural character. Minimise impact on the Listed Buildings and their setting.</td>
</tr>
</tbody>
</table>

### Site MDS/2 MDS/3

| Location:       | Ashlys School, Chesham Road |
| Planning        | School site included within the southern Education Zone for Berkhamsted. Any future development should minimise impact on the Listed Building and its setting. |

### Site MDS/3 MDS/4

| Location:       | British Film Institute, Berkhamsted |
| Planning        | Any future development should avoid encroachment into the southern and eastern most part of the site and minimise impact on the Listed Building and its setting. |

### Bovingdon

<table>
<thead>
<tr>
<th>Site MDS/4 MDS/5</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Location:</td>
<td>Bovingdon Brickworks</td>
</tr>
<tr>
<td>Planning</td>
<td>External boundary treated as the infill area subject to the intensity of any future development being appropriate for the Green Belt location. Environmental improvements required. Also see requirements relating to Policy SA6: Employment Areas in the Green Belt.</td>
</tr>
</tbody>
</table>

### Site MDS/5 MDS/6

| Location:       | Bovingdon Prison, Molyneaux Avenue |
| Planning        | Area of infill reflects recent development. The infill area excludes the car park and landscaping at the southern tip of the site, which should remain open in character. |

### Kings Langley

| SC3 (below) |  |
| Site MDS/6 MDS/7 |  |
| Location:       | Kings Langley School, Love Lane |
| Planning        | Infill area to be defined following completion of the school redevelopment. Development should be focussed in the southern part of the site, broadly reflecting the extent of the existing buildings. The remaining part of the site should remain in open playing field use. Development to be located within the infill area. Outside of the infill area appropriate open uses are acceptable such as playing pitches (hard or soft surfaced) and car parking. |

### Other

| SC4 (below) |  |
| Site MDS/7 MDS/8 |  |
| Location:       | Bourne End Mills Employment Area, Bourne End |
| Planning        | Environmental improvements required. External boundary treated as New development should be focussed within the infill area subject to the its intensity of any future development being appropriate for the Green Belt location. Environmental |
improvements required throughout the site, including the former area of open storage to the south west (excluded from the infill area) which is MDS and to remain open. Also see requirements relating to Policy SA6: Employment Areas in the Green Belt.

Mixed Use Developments

2.12 There are a number of instances, particularly with larger sites, where an allocation will be delivered as part of a mix of other activities, often including housing, commercial, social, community and/or leisure uses. This approach is supported by national guidance, with the NPPF requiring planning to ‘promote mixed use development, and encourage multiple benefits from the use of land’ (paragraph 17).

2.13 Sometimes the precise location of particular uses within a mixed use site is not yet known, or it is appropriate to provide flexibility to allow proposals to respond to changing needs. In these instances a broad mixed designation is justified. Whilst housing-led, some of the Local Allocations also deliver a mix of uses (see Policies LA1-6).

Schedule of Mixed Use Proposals and Sites

Note: Proposals and sites below are also cross referenced in other relevant schedules as appropriate.

<tr>
<td><strong>Site Area: (Ha)</strong> 6.0</td>
</tr>
<tr>
<td><strong>Proposal:</strong> Replacement college, new Public Sector Quarter and housing (500-600 homes)</td>
</tr>
<tr>
<td><strong>Planning Requirements:</strong> Development to be guided by Town Centre Master Plan (Gade Zone) and associated Gade Zone Planning Statement. Proposal to be planned comprehensively to secure a range of uses including a new Public Service Quarter and replacement college campus. Mix of uses to include educational, leisure and commercial uses including retail uses (possibly including a food store). High density housing is acceptable. Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.</td>
</tr>
</tbody>
</table>
### MC4 (below)

**Proposal MU/2**

| Location: | Hemel Hempstead Hospital Site, Hillfield Road |
| Site Area: (Ha) | 6.96 |
| Proposal: | Replacement hospital, new 2 form entry primary school and housing (200 homes) |
| Planning Requirements: | Amend Planning Requirements for Proposal MU/2 Hemel Hempstead Hospital Site as follows: |

Development to be guided by Town Centre Master Plan (Hospital Zone). Development brief required. Key uses to include a reconfigured local hospital facilities and the provision of a new primary school. Housing to be delivered as part of a comprehensive development. Development to be coordinated with H/7. **Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.**

### MC6 (below)

**Proposal MU/3**

| Location: | Paradise/Wood Lane |
| Site Area: (Ha) | 3.0 |
| Proposal: | B1 led business and housing (75 homes) |
| Planning Requirements: | Development to be guided by Town Centre Master Plan (Hospital Zone). Potential for redevelopment for smaller units in B1 use. High density flats or housing acceptable. **Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.** |

### MC7 (below)

**Proposal MU/4**

| Location: | Hemel Hempstead Station Gateway, London Road |
| Site Area: (Ha) | 2.8 |
| Proposal: | Improved transport interchange, new multi-storey car park and housing (140-200 homes) |
| Planning Requirements: | Development brief required to take forward existing Hemel Hempstead Station Gateway feasibility study. Comprehensive redevelopment of site sought, to promote the station as a key transport gateway and to deliver improvements to the station forecourt. Uses to include housing, multi-storey car park and other commercial uses that complement the operation of the railway station. The layout, scale, height and density of the development must respect the adjoining residential area and semi-rural character of Boxmoor. **It should not lead to any adverse effects on the nearby Roughdown Common SSSI.** Development must deliver improvements to the immediate and wider vehicular and pedestrian circulation across the site and to and from the railway station and station forecourt. Existing mature trees should be retained where possible. **Early liaison required** |

---

20
with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.

### MC8 (below)

#### Proposal MU/5

**Location:** Bunkers Park, Bunkers Lane  
**Site Area: (Ha)** 12.3  
**Proposal:** New leisure space and cemetery  
**Planning Requirements:** Master plan required to co-ordinate uses across the site. Potential to accommodate the relocation of existing local tennis facilities to allow housing allocation H/7 to proceed, subject to further technical work to assess whether an exception to normal policy can be fully justified in the light of Bunker’s Park location in the Green Belt, the facility’s current siting in Open Land, and that there are no other suitable alternative sites available within the settlement boundary. Leisure space to include public and private sport pitches. The new tennis facilities should be of at least equivalent quantity and quality, located in a suitable location, and should be substantially progressed before any housing scheme has commenced on H/6 in order to ensure its delivery. It is anticipated that joint applications will be made to co-ordinate Proposals H/6 and MU/5. Any buildings and car parking to be separated from adjacent residential properties by an effective landscape screen and well screened from adjacent open areas. Existing trees and hedgerows to be retained and enhanced, and further planting carried out as appropriate.

### Berkhamsted

#### Proposal MU/6

**Location:** Land at Durrants Lane/Shootersway (Egerton Rothesay School)  
**Site Area: (Ha)** 14.3  
**Proposal:** Housing (150 homes), improvements to existing school, replacement playing fields, new leisure space.  
**Planning Requirements:** Development to be guided by requirements as set out under Proposal SS1 in the Core Strategy and associated master plan. Proposal linked to leisure proposal L/2 which will deliver formal and informal playing fields. Comprehensive development scheme is required to deliver a mix of residential, educational and leisure uses. Planning application for 92 homes submitted in 2013/14 approved in 2014/15 on southern part of site. Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.

</tr>
</tbody>
</table>

See section 2 of the accompanying Map Book
3. Enabling Convenient Access between Homes, Jobs and Facilities

Introduction

3.1 New transport proposals are specifically identified to help ease access to homes, workplaces, shops and social facilities. They will help tackle peak-time congestion, reduce casualties, support economic growth and enable access to key services. Site are identified based on the principles set out in the Core Strategy (Policies CS8: Sustainable Transport and CS9: Management of Roads) and the NPPF. The NPPF requires that ‘local planning authorities should identify and protect, where there is robust evidence, sites and routes which could be critical in developing infrastructure to widen transport choice’ (paragraph 41).

Transport Proposals

3.2 Proposed transport schemes are identified through a number of mechanisms, such as the Local Transport Plan, cycle, bus and rail strategies, urban transport plans, and detailed modelling. They safeguard, retain and improve existing facilities and routes and provide new transport infrastructure. The list of eligible schemes will be reviewed and updated by the Council and local highway authority throughout the plan period. Dacorum’s Infrastructure Delivery Plan (InDP)\(^3\) includes many of these schemes and is updated on a regular basis.

3.3 Specific schemes required to support the delivery of the Core Strategy are set out in the Schedule of Transport Proposals and Sites below. These uses are protected from alternative development in accordance with Policy SA1: Identified Proposals and Sites. More detailed transport requirements associated with identified development proposals are set out in the relevant site schedules. Specific transport requirements for the Local Allocations are set out in Policies LA1 to LA6, with further details provided by site master plans.

3.4 Transport proposals are identified either to safeguard or allocate sites for a particular purpose. They include proposals for passenger transport, highway improvements, cycle and pedestrian routes, and car parking. The schedule reflects the focus of the current Local Transport Plan (2011-2031) upon making better use of the existing transport network and passenger transport.

3.5 Proposals at East Hemel Hempstead will be presented separately in the Area Action Plan (AAP). Proposals listed within the Dacorum Borough Local Plan Transport Schedule for this area will therefore be retained until reviewed through the AAP process. The following are significant for delivery of the Core Strategy:

\(^3\) Appendix 1 of the Infrastructure Delivery Plan June 2015
• Improved lorry parking facilities;
• Completion of the Maylands Growth Corridor (formerly known as the North East Relief Road);
• Junction improvements (including the A414 with Maylands Avenue / Leverstock Green Road and with Green Lane); and
• Access road(s) and links to support delivery of the Maylands Gateway.

3.6 Small scale highway improvements will be promoted separately through the planning process, with priority being given to sustainable and healthy transport. These will include traffic calming measures, pedestrian crossings, speed management and cycle routes, and the aim to reduce traffic collisions, improve public rights of way, enhance ‘Safer Routes to School,’ and maintain highway capacity and safety.

3.7 Intelligent Transport Systems will help network managers, transport operators and motorists make best use of roads, particularly in and around the main towns. Such measures include optimising traffic signals and providing real-time information for passenger transport. Up-to-date information on buses and trains will improve journey experience for passengers and encourage motorists to use them more. Travel plans for schools, businesses, railway stations and large new developments will also play a part.

3.8 Facilities for passenger transport, for disabled persons and for cyclists and pedestrians have a high priority. Footpaths and cycle routes should connect significant locations and effectively link together. New infrastructure will be essential to enable passenger transport improvements.

MC12 (below)

3.9 The Government is considering extending the current Crossrail project into Hertfordshire to stations including Hemel Hempstead, Berkhamsted and Tring. Should this scheme go ahead, it is expected to lead to reduced journey times and extended services into London without the need to change at Euston. The project could result in significant new investment in the railway stations, particularly at Tring station.

3.10 In addition to schemes within the Borough, there are also a range of major transport schemes planned in the sub-region. These will bring a range of benefits to the area, primarily through increased accessibility to wider services and facilities, and include:

• Oxford-Cambridge ‘East-West’ rail link
• Dunstable Northern Bypass (A5-M1) link
• Croxley rail link
• Watford Junction interchange improvements
• High Speed Rail 2 (HS2)
• M25 widening at junctions 23-27 (currently underway)
• Increased capacity at Luton Airport
POLICY SA3: Improving Transport Infrastructure

MC13 (below)
The main transport proposals in the plan area for allocation and safeguarding are identified in the Schedule of Transport Proposals and Sites.

Other transport schemes contained in the Infrastructure Delivery Plan, the Local Transport Plan, Urban Transport Plans, and complementary documents will be brought forward as resources and priorities allow.

Opportunities will also be taken to:
(a) enhance footpath and cycle networks and links; and
(b) support bus patronage through network improvements and waiting and interchange facilities in all appropriate developments.

New and existing roads will be used as effectively as possible in accordance with their role in the road hierarchy. The current road hierarchy is shown on the Policies Map and will be updated to accord with the latest advice of the highway authority.

Development will support and not prejudice the delivery of new and improved transport infrastructure for both the main transport proposals and other schemes. Support will take the form of appropriate works and/or financial contributions.

Parking Provision

3.11 Parking strategies and standards can be used as tools, where appropriate, to address the level of parking provision in town centres and in the wider area. This complements other elements of the transport infrastructure. The existing provision for public car parking should be maintained. The effective management of parking facilities can help encourage a modal shift towards increased use of sustainable transport.

POLICY SA4: Public Car Parking

Off street public car parks will be retained for this purpose. The use of these car parks will be optimised through management and, if appropriate, by extension. No alternative use will be permitted unless:

- the car parking is no longer needed; or
- a satisfactory alternative is provided.

The shared use of private car parking by the public will be encouraged, provided this is outside the working hours of the private development. In reaching any decision on public car parking, due regard will be paid to the parking strategy and any relevant transport strategy for the area.
**Schedule of Transport Proposals and Sites**

**MC14 (below)**

*Note: Proposals are referred to as being either short term (to 2021) or long term (2021-2031). However, where opportunities arise, schemes could be brought forward earlier where appropriate and if financial and technical resources allow.*

Strengthening Economic Prosperity

Strategic Objectives

- To promote a vibrant and prosperous economy:
  - to strengthen confidence in Hemel Hempstead’s role as a thriving sub-regional business centre and shopping hub;
  - to develop Maylands Business Park as a leader of “green enterprise” and focus of the low carbon economy;
  - to maintain commercial enterprise and employment opportunities in the market towns and large villages; and
  - to support rural enterprise.
4. Providing for Offices, Industry, Storage and Distribution

Introduction

4.1 Jobs will be provided across a range of uses and associated allocations, but employment uses (offices, research, industrial, storage and distribution, also called B-class uses) are a key component of the local economy. These uses provide just under half of all jobs in the Borough. It is therefore important to identify and provide a minimum area of employment land for the B-class uses throughout the plan period. This will help to achieve full employment, while maintaining prevailing levels of out-commuting. The Core Strategy requires that a minimum area of land will be identified and retained for B-class uses, comprising:

- General Employment Areas (Policy SA5);
- Employment areas in the Green Belt (Policy SA6);
- Employment proposal sites (see Schedule of Employment Proposals and Sites below); and
- Land in town and local centres (see Section 5)

Employment Targets

4.2 Office jobs account for around a quarter of total jobs within Dacorum and are located mainly within the General Employment Areas (GEAs) and town centres. New office jobs will make a significant contribution to the Borough’s total additional jobs over the plan period. The technical work\(^4\) forecasts that approximately 7,000 new office jobs will be provided within the Borough from 2006 to 2031.

4.3 Industrial and storage floorspace will also continue to make an important contribution to the overall employment mix. This reflects the fact that the Maylands Business Park is the main industrial concentration in south west Hertfordshire and one of the main distribution centres around the M25 and southern part of the M1. Detailed allocations relating to the Maylands area will be set out in the East Hemel Hempstead Area Action Plan.

4.4 Core Strategy Policy CS15: Offices, Research, Industry, Storage and Distribution sets out the following targets for the 2006-2031 period:

- around 131,000 sq m (net) additional office floorspace: and
- the stock of floorspace for industry, storage and distribution to remain broadly unchanged from 2011 baseline.

4.5 Through the combined role of existing and proposed employment sites, there is sufficient capacity within the Borough to meet these floorspace targets.

---

\(^4\) Employment Land Update, Roger Tym and Partners, 2011
4.6 The range of uses permitted within each defined employment area enables the market to respond to changes in demand. Additional flexibility has also been provided through a revision to the Maylands Gateway Development Brief, to allow potential for a greater range of employment-generating uses on this site.

4.7 The Hemel Hempstead Town Centre Master Plan includes some scope for B-class uses, although there are no site-specific proposals.

**General Employment Areas**

4.8 The largest concentrations of B-class uses are located within General Employment Areas (GEAs). GEA designation ensures that appropriate land is set aside and protected for specific employment uses. The principal GEAs are located in the three towns, with a smaller, but locally significant GEA in Markyate.

4.9 The majority of employment jobs growth will be directed to Maylands Business Park (see section 11 of Core Strategy and the Hemel Hempstead Place Strategy). The East Hemel Hempstead Area Action Plan will guide the regeneration of this area; reflecting the character areas identified in the Maylands Master Plan. The Maylands Gateway (see Figure 22 of the Core Strategy) will provide the main location for new offices. Detailed guidance on this site is provided in the Maylands Gateway Development Brief. The area referred to as the Face of Maylands will also be an important office location.

4.10 The area to be covered by the East Hemel Hempstead Area Action Plan includes the majority of the site known as Spencer’s Park. This site was formerly allocated for employment development. This allocation has however now been replaced by the alternative allocation on the Maylands Gateway: freeing up Spencer’s Park for housing development (see Core Strategy Figures 17 and 22).

4.11 Elsewhere in the Borough, the general approach is to prevent the loss of employment floorspace within GEAs. However, some changes are justified, mainly to reflect changes that have taken place in some GEAs and the recommendations of technical work.

Employment Areas in the Green Belt

4.12 Bourne End Mills and Bovingdon Brickworks are identified as both Major Developed Sites in the Green Belt (see Policy SA2 and associated schedule) and Employment Areas in the Green Belt. Redevelopment or limited infilling of these sites may help support the local economy and deliver environmental improvements.

4.13 The sites have been designated because they are substantial in size, contain a significant amount and scale of built development, and have the potential to accommodate some further employment development. Neither new development or redevelopment should prejudice wider Green Belt objectives.

POLICY SA6: Employment Areas in the Green Belt

Employment areas in the Green Belt are shown on the Policies Map. Within these areas, the range of employment generating uses set out in the table below will be retained.

Expansion of floorspace or redevelopment will be permitted if it accords with Core Strategy Policy CS5: Green Belt, Policy SA2: Major Developed Sites in the Green Belt and other relevant policies and guidance.

5. Supporting Retailing and Commerce

Introduction

5.1 The NPPF places a strong emphasis on the planning system encouraging and enabling sustainable economic growth. It also recognises the important role town centres have at the heart of their communities, and their importance to the local economy. The Core Strategy reiterates these objectives. It acknowledges that a significant proportion of new jobs will come from the retail and services sectors and sets out the approach to new retail development. This includes the retail hierarchy, shopping areas and out of centre retail development. The focus on the regeneration of Hemel Hempstead town centre aims to strengthen its role as a community hub and its provision of local goods and services.

Town Centres

5.2 Hemel Hempstead is the Borough’s principal town centre, with smaller secondary town centres in Berkhamsted and Tring. Policy CS4 sets out the types of uses acceptable in town centres, whilst the Place Strategies establish specific requirements for each area.

5.3 The approach to town centre planning within Dacorum has historically focussed on the retention of shops (A1 uses). In recognition of the wider social and leisure role now played by town centres, and in response to the rise in internet shopping, a more flexible approach is appropriate. This supports an increase in overall footfall and will enhance the vitality and viability of these areas. This policy approach will be supported by appropriate improvements to the public realm.

5.4 The Hemel Hempstead Place Strategy includes a vision for the town centre and sets out development opportunities for seven different town centre character zones. It also includes a policy for new development in Hemel Hempstead Town Centre (Policy CS33). The Hemel Hempstead Town Centre Master Plan\(^{12}\) provides further policy advice; setting out an overarching direction for the future of the whole town centre and giving detailed guidance for each character zone (see Core Strategy Figures 17).

5.5 The Gade Zone is expected to undergo the most significant change, with large scale redevelopment proposed at the northern end (see Mixed Use Proposal MU/1), a leisure development on Market Square (see leisure proposal L/1) and the relocation of the bus station from Waterhouse Street to the Marlowes and Bridge Street (see transport proposal T/2 in section 4). A Planning Statement provides detailed guidance for this zone\(^ {13}\).

---

\(^{12}\) Prepared by Dacorum Borough Council and adopted as a Supplementary Planning Document (SPD) in September 2013.

\(^{13}\) Gade Zone Planning Statement, prepared by Dacorum Borough Council and adopted in April 2012.
5.6 Due to their location and proximity to other town centre facilities, different types of development lend themselves to different zones. For example, health uses will be encouraged in the northern end of the Marlowes Shopping Zone, between Market Square and Bridge Street, due to the proximity of Hemel Hempstead Hospital.

5.7 Whilst the greatest retail changes will be in Hemel Hempstead town centre, there are also changes to the extent of the defined frontages in Berkhamsted and Tring. These are aimed at maintaining and enhancing the vibrancy of these historic market towns.

**Shopping Areas**

5.8 The three town centres each contain a key shopping area\textsuperscript{14} comprising both primary and secondary frontages. The primary frontage denotes the retail core, where an active and vibrant retail offer will be promoted. Secondary frontages are also important to the overall vitality and viability of the centres and have a more diverse range of retail and complementary uses. These terms accord with the NPPF and correspond to the ‘main’ and ‘mixed’ frontage designations referred to in the Core Strategy.

5.9 The extent of the key shopping areas have been defined in the light of technical studies\textsuperscript{15}, evidence regarding existing uses and footfall, and in the case of Hemel Hempstead, by the Place Strategy and Town Centre Masterplan. The key shopping areas are shown on the Policies Map, with detailed address information set out in Appendix 4.

5.10 Changes to permitted development (PD) rights allow for the change of use from a small shop or professional/financial service to residential use, subject to a local impact test. This test includes consideration of whether the shop is in a key shopping area. Within the key shopping areas, it is important to retain active frontages at the ground floor level; residential and office uses will therefore be resisted. Active frontages enhance the vitality and vibrancy of town centres; a proliferation of inactive frontages can result in ‘dead’ frontage, reduced pedestrian flows and lead to the gradual disappearance of shopping.

\textsuperscript{14} Referred to as ‘primary shopping areas’ in the NPPF.
\textsuperscript{15} Dacorum Retail and Leisure Study, 2006, prepared by Donaldsons; Dacorum Retail Study Update, 2009, prepared by DTZ; and Retail Study Update, 2011, prepared by GL Hearn.
POLICY SA7: Shopping Areas in Town Centres

Each town centre contains a key shopping area which comprises:
(a) Primary frontage; and
(b) Secondary frontage
as shown on the Policies Map.

Within the key shopping area, all new development should provide an active frontage at ground floor level, contribute to the vibrancy of the centre and promote the objectives of the relevant Place Strategy.

In Hemel Hempstead town centre, development should comply with Policy CS33 and support the strategy for each character zone set out in the Town Centre Master Plan.

Within primary frontages, the following uses will be permitted at ground floor level:
(a) A1 (shops);
(b) A3 (restaurants and cafes); and
(c) D2 (assembly and leisure).

Within secondary frontages, the following uses will be permitted at ground floor level:
(a) A1 (shops);
(b) A2 (financial and professional services);
(c) A3 (restaurants and cafes);
(d) A4 (drinking establishments);
(e) A5 (hot food takeaways);
(f) D1 (non-residential institutions); and
(g) D2 (assembly and leisure).

Local Centres

5.11 There are 19 local centres within the Borough (see Table 5 in the Core Strategy): one of which – the Heart of Maylands – is newly designated. Its boundary will be defined on the Policies Map through the East Hemel Hempstead Area Action Plan. Local centres in the Borough are generally performing well, and both their extent and defined shopping areas remain unchanged. This policy approach will be reviewed through the Development Management DPD.

5.12 The Core Strategy redesignated Jarman Fields from a local centre with a district shopping function to an out of centre retail and leisure location. This change is shown on the Policies Map.
New Retail Floorspace

5.13 Core Strategy Policy CS16 sets out the amount of additional retail floorspace that is projected to come forward over the plan period. Whilst specific sites are not allocated to accommodate all of this new floorspace, the policies provide sufficient flexibility to enable this to occur, if there is market demand.

5.14 The greatest demand for new floorspace is expected to be within Hemel Hempstead. The Hemel Hempstead Town Centre Master Plan provides further guidance regarding the most appropriate locations for different types of floorspace.

5.15 With regard to the anticipated comparison retail, such as non-food, retail floorspace, demand from operators for the amount set out in the Core Strategy is uncertain. The depth and length of the recent recession has been greater than predicted, and the role and full impact of the internet on shopping patterns was, and still is, evolving.

5.16 There are a number of vacant units in Hemel Hempstead town centre, some of which are large. In some cases, it may be helpful to subdivide a unit to improve viability and vitality of the town centre and reflect future market demands.

5.17 The demand for new convenience (food) retail floorspace remains strong; with a number of new and planned food stores in the Borough. A new Aldi store has recently opened in Hemel Hempstead, and another is due to open later in 2014. In Berkhamsted, a Marks and Spencer Simply Food and a new Lidl are expected to open in the near future. These complement the existing convenience floorspace.

Shopping Proposal Sites

5.18 The majority of the shopping proposal sites contained within the Dacorum Borough Local Plan have either been delivered, or are now unlikely to be delivered due to changes in circumstances. The exception is the site at Jarman Fields which was designated for a mixed use scheme including shopping, offices, leisure, catering establishments, residential and non-food retail warehousing. The site has been re-allocated (site reference S/1) as an out of centre retail location where non-food retail warehousing is acceptable.

5.19 Two additional out of centre retail locations are designated; one in Two Waters, Hemel Hempstead and the other in Berkhamsted. Both relate to former employment land that was being used for car sales / repairs. The Berkhamsted scheme forms part of Mixed Use Proposal MU/7. The table of out of centre retail locations (Table 6 in the Core Strategy) has been updated and is shown below as Table 1.

Providing Homes and Community Services

**Strategic Objectives**

- To provide a mix of new homes to meet the needs of the population.
- To provide for a full range of social, leisure and community facilities and services.
6. Providing Homes

Introduction

6.1 The National Planning Policy Framework (NPPF) provides advice on making provision for new homes over the lifetime of a development plan. It supports a positive, plan-led approach to the delivery of homes in accordance with sustainable development, and that reflects local demand. Residential development should have realistic prospects of being developed and meet the needs of different groups in the community.

6.2 The Core Strategy identifies the need to deliver a target of 10,750 dwellings (at an average rate of 430 dwellings per annum) over the period 2006 to 2031. A higher level could be achieved (estimated at around 11,320 homes) if full account is taken of all available sources (i.e. windfalls) (see Table 8 in the Core Strategy). This is reflected in the indicative level of homes in the Place Strategies for each settlement and the countryside.

6.3 Core Strategy Policies CS2: Selection of Development Sites and CS35: Infrastructure and Developer Contributions require all development to provide, or make adequate contribution towards, infrastructure and services. The Core Strategy does not set out any absolute requirements regarding the timing of new homes except in the case of the release of the Local Allocations, which are seen as being delivered from 2021 onwards (Policy CS3: Managing Selected Development Sites). They may be released earlier in order to secure a five year housing land supply. However, a decision has now been taken to bring forward Local Allocation LA5 earlier (see paragraph 6.27). New homes are generally directed to the towns and larger villages in accordance with the settlement hierarchy (Policy CS1: Distribution of Development), although the largest share of this will be taken by Hemel Hempstead as a Main Centre for Development and Change.

Identification and Selection of Sites

6.4 A range of sources have been used to identify potential housing sites:

• unimplemented proposal sites and conversion of employment land to housing in the Dacorum Borough Local Plan 1991-2011;
• land subject to more detailed supplementary planning guidance and development briefs;
• sites put forward through consultation on the Issues and Options stage (in 2006 and 2008);
• sites put forward after 2008 and through “call for sites” in early 2014 and early 2015;
• information on the Council’s own New Build Programme;
• existing Strategic Housing Land Availability Assessment (SHLAA) sites; and
• new housing sites identified in the housing programme in the Annual Monitoring Report (AMR).
6.5 The site selection process involved consultation and the production of a full evidence base to support and justify the conclusions reached. The evidence reports set out the detailed methodology and site selection criteria, and reasoning and justification for allocation or not\textsuperscript{16}.

6.6 All potential development sites were assessed against a detailed and wide range of criteria, which were based on the principles of sustainable development. The assessment also included, where appropriate, site visits and desk based research. Site options have also been subject to separate, independent Sustainability Appraisal\textsuperscript{17}. Not all of the sites identified or put forward were selected.

6.7 Key factors used to determine housing allocations include:

- assessment against national and local planning policy, particularly the ability to help deliver strategic priorities in the Core Strategy;
- development of a robust evidence base, including infrastructure needs;
- feedback from stakeholder and community participation;
- assessment through the Sustainability Appraisal process;
- consideration as to whether sites are deliverable or developable during the plan period;
- size thresholds - only larger sites are allocated;
- potential or appropriateness for development, for example, the extent of planning constraints such as flood risk, listed buildings, impact on the Chilterns Area of Outstanding Natural Beauty, etc.

6.8 There were several key components to the selection process. Some sites had already been tested through the SHLAA process of identifying the suitability and viability of sites for housing. These and other sites were further refined through detailed on-going monitoring of the housing programme in the Annual Monitoring Report (AMR).

6.9 The Core Strategy provides a framework against which to eliminate sites that are unsuitable in terms of scale and/or location. Sites should conform to the overall spatial distribution of growth set out in policies CS1-CS7, particularly in respect of the Green Belt. As a result, a large number of suggested greenfield sites located on the edge of settlements and in the countryside were rejected.

6.10 Engagement with landowners, developers, and stakeholders, including residents and community groups, has also played a key role in the choice of sites and development of site specific policies.

6.11 The Site Allocations document focuses on sites that will make a significant contribution to delivering the objectives of the Core Strategy. For practical reasons, and taking account of the size of Dacorum and the considerable number of sites that have been advanced for possible development, a size threshold has been adopted for allocations of 0.3

\textsuperscript{16} Dacorum’s Schedule of Site Appraisals, November 2006, November 2008 and June 2014.

\textsuperscript{17} C4S Dacorum Site Allocations DPD Issues and Options Paper SA & SEA Working Note on Initial Issues and Options, December 2006 and October 2008, and Sustainability Appraisal Working Note on Dacorum Site Allocations Options (September 2014)
hectares or greater (or capable of accommodating 10 dwellings or more). Developments below this threshold can still be considered on their merits, through the planning application process, and will contribute to overall housing delivery.

6.12 Some of the new homes to be delivered over the next 15 years are within and around the Maylands Business Park. This area will be the subject of a separate East Hemel Hempstead Area Action Plan (see the Hemel Hempstead Place Strategy). Further details regarding these sites will be set out in this document. Key housing schemes and their progress are set out in Table 2. Their overall contribution towards the housing programme is accounted for in Table 3. The contribution of housing from office conversions under the current prior approval process may further increase the future potential of housing in this area.

<td>Spencers Park (Phase 2), Three Cherry Trees Lane</td>
<td>c.550</td>
<td>Land principally in one main ownership. Master plan/development brief required. Comprehensive development to be delivered and coordinated with earlier phase. Medium term, with delivery expected from 2019/20 onwards.</td>
</tr>
<tr>
<td>Heart of Maylands, Wood Lane End / Maylands Avenue</td>
<td>c.400</td>
<td>Creation of a new local centre with supporting uses. Precise boundaries of this to be defined in the AAP. Land in multiple ownership. Feasibility study completed in 2010. Expected to come forward in phases from 2015 onwards. Detailed planning being progressed in 2014/15 for eastern block to deliver a mix of housing, local retailing, commercial and social and community facilities.</td>
</tr>
</tbody>
</table>

6.13 A neighbourhood plan is being progressed in the Grovehill neighbourhood of Hemel Hempstead. The plan is at a draft stage and includes the potential for redevelopment of the Grovehill local centre that could deliver additional housing land (c. 200 homes). However, whilst accepted in principle, the work is not at a sufficiently advanced stage to justify a specific allocation.

The Housing Programme

6.14 Demand for new homes in Dacorum is high. The starting point has therefore been to protect existing accommodation in the Borough so as not to undermine the current stock of housing. Not only does the Council have to demonstrate how the plan housing requirement is to be met, but it has to also identify and maintain a rolling 5-year supply of deliverable sites.

6.15 Over the period 2006-2015, 3,377 homes (net) had been completed. As at 1st April 2015, there were commitments (i.e. planning permission and applications awaiting the completion of legal agreements) for 2,569 homes. The Residential Land Position Statement and Authority Monitoring Report provide information on all committed sites. The Site Allocations document sets
out how the housing allocations will contribute towards meeting the remaining requirement of 7,373† homes.\textsuperscript{18}

6.16 Table 3 sets out the key sources of housing supply and their contribution towards the plan requirements. The contribution from housing allocations is significant (3,647 homes). Much of the outstanding requirement is already allocated as residential or benefits from a current planning permission for residential use and comprises:

- remaining Strategic Housing Allocation Assessment sites and other (new) sites below the size threshold;
- defined locations in Hemel Hempstead including housing opportunities to be identified in the East Hemel Hempstead Area Action Plan;
- Gypsy and Traveller pitches to be delivered through the Local Allocations (see Policies LA1, LA3 and LA5); and
- windfall site opportunities i.e. small unidentified new build and conversion housing sites.

* Source: 2014/15 AMR (as at 1\textsuperscript{st} April 2015).

6.17 The housing programme demonstrates that the Core Strategy target can be met and exceeded. The housing trajectory sets out projected completions during the plan period (Appendix 2). If full account is taken of all potential future sources of housing land (e.g. small windfalls on garden land and larger windfall potential) this provides for a reasonable margin to allow some flexibility over housing supply.

6.18 The full housing programme is provided as part of the background evidence\textsuperscript{19}.

**Housing Schedule**

6.19 Details of individual housing allocations are provided below in the Schedule of Housing Proposals and Sites. The housing sites are mapped by settlement and are shown alongside all other allocations in the relevant Place Strategies

\textsuperscript{19} Site Allocations Issues Paper: Providing Homes and Community Services (June 2015)
Allocations have been selected on the basis of their availability, deliverability and viability as described above.

6.20 Apart from the Local Allocations referred to below, no detailed phasing requirements are set, although the choice of development sites has been guided by Policy CS2: Selection of Development Sites. A steady delivery of housing land must be encouraged over the plan period and to also ensure a five year housing land supply is maintained. Sites in Part 1 of the schedule are available at any time subject to typical considerations of infrastructure capacity, local character and amenity. There will be a natural control over many of the larger allocations where infrastructure requirements, physical capacity to deliver, market conditions etc. are more critical. Sites in Part 2 of the schedule are programmed for development from 2021 onwards.

6.21 The housing schedule provides for an indicative capacity of 3,656 dwellings.

6.22 Other housing sites that come forward through the planning application process will be treated on their merits and in accordance with relevant national and local policies.

**Local Allocations**

6.23 The Core Strategy has identified urban extensions to some of the larger settlements referred to as Local Allocations. Developing these sites requires their release from the Green Belt. This principle was established through the Core Strategy. They will contribute over 1,595 homes over the plan period. This total capacity has increased slightly from the original indicative figure in the Core Strategy (1,550) due to the conclusion of subsequent technical work to inform the site master plans.

6.24 Policies LA1-LA6 set out in more detail how the Local Allocations will be brought forward, identify key planning requirements, and establish new, defensible Green Belt boundaries. These policies are supported by site master plans which will help guide the form, timing and principles of development in each case. Requirements in the Site Allocations document will take precedence if there are variations between this and the corresponding requirements in the Core Strategy.

6.25 Local Allocations perform an important role in the housing programme, particularly over the latter half of the plan period. They are locally important in the Place Strategies in terms of addressing housing demand and need (e.g. delivering family homes and affordable housing) and in securing a range of physical and social infrastructure (e.g. new community facilities, open space, formal and informal play areas and Gypsy and Traveller sites).

6.26 Core Strategy Policy CS3: Managing Selected Development Sites controls the timing of delivery, stating that the Local Allocations will be delivered from 2021. This approach is principally to ensure a steady release of housing land over the plan period, to encourage earlier opportunities for homes on previously developed land within the settlements, to boost supply over the latter half of the housing programme (where identified urban sites decline), and to maintain housing activity for the development industry and wider local
economy. In the short to medium term, housing supply in the Borough is strong without their contribution.

6.27 Following further consideration of local housing needs and the role the site will play in delivering other essential local infrastructure, the delivery of Local Allocation LA5: Icknield Way, west of Tring has been brought forward into Part 1 of the Schedule of Housing Proposals and Sites. Whilst no specific delivery date has been set, this will follow the formal release of the site from the Green Belt i.e. after adoption of the Site Allocations DPD.

6.28 The remaining Local Allocations (i.e. LA1, LA2, LA3, LA4 and LA6) are included in Part 2 of the Schedule of Housing Proposals and Sites and will bring forward completed homes from 2021 onwards. No detailed phasing of individual sites is warranted as they vary significantly in size, character, and location, and these factors will naturally regulate their release over time. However, there will need to be a lead in period in order to allow practical delivery from 2021. In practice, this will mean that applications will be received and determined in advance of 2021 and that site construction and works may actually take place ahead of the specified release date to enable occupation of new homes by 2021.

6.29 Earlier release of these Local Allocations may be justified so as to maintain a five year housing land supply, in accordance with Core Strategy Policy CS3: Managing Selected Development Sites. Decisions on such action will be informed by the Annual Monitoring Report process.

6.30 All Local Allocations will be safeguarded and managed as open land or other appropriate temporary uses until developed for their allocated use(s).

POLICY SA8: Local Allocations

Local Allocations will be brought forward in accordance with Policies LA1 to LA6 and the Schedule of Housing Proposals and Sites. Site master plans will provide further guidance regarding detailed design and layout.

In advance of their development for housing, planning permission will be granted for:

(a) uses and development associated with open land (Policy CS4: The Towns and Large Villages); and
(b) temporary uses which do not prejudice their delivery for their allocated use(s).
### Policy LA1: Marchmont Farm, Hemel Hempstead

Local Allocation 1 at Marchmont Farm as identified on the Policies Map will be released from the Green Belt and deliver the following:

- 300-350 homes;
- a traveller site of 5 pitches;
- an extension to Margaret Lloyd Park;
- the provision of a locally equipped area of plan (LEAP); and
- inclusion of a sustainable drainage (SUDS) basin.

The key development principles for the site are set out below. Further detail is in a site master plan.

### Marchmont Farm Vision

The new part of Grovehill will be an attractive place in its own right. Its character and appearance will complement and enhance Grovehill. The development will be integrated with the rest of Grovehill through the use of the local centre and other shared services, facilities and open space. Pedestrian and cycle routes will permeate the neighbourhood.

The new area will be an inclusive community, designed to be safe and secure. There will be a mix of homes, accommodating both smaller households and family homes. Development will be spacious and will allow views of the countryside in the Gade valley. Open space will permeate the neighbourhood, providing links between Margaret Lloyd Park, Howe Grove and the wider countryside.

### Key Development Principles

The following principles will be used to guide the site master plan and assess the subsequent planning application:

**MC16 (below)**

- Deliver a mix of two storey and three storey housing including 40% affordable homes.
- Provide for family homes and larger, more spacious properties within a range a provision.
- Incorporate 5 pitches for gypsies and travellers at the site with good access to the primary road network.

**MC17 (below)**

- Limit buildings to two storeys, except where a higher element would create interest and focal points in the street scene and is appropriate in terms of topography and visual impact.
- Enlarge Margaret Lloyd Park; Arrange the open space to ensure a pleasant, coherent and wildlife-friendly network linking to Hunting Gate Wood and Howe Grove.
- Soften views of housing from the countryside by use of planting, by retaining appropriate hedges and by siting open space carefully.
- Provide a soft edge to the countryside and ensure visual and physical separation from Piccotts End.
- Incorporate a sustainable drainage system throughout the site including the use of green space as a basin.
- Plan good pedestrian and cycle access to Henry Wells Square and to key services, such as bus stops and community facilities.
- Take the main vehicular access from East–West Link Road (A4147).

### Indicative Spatial Layout

![Indicative Spatial Layout Diagram]

### Delivery and Phasing

- LA1 is scheduled to come forward from 2021 onwards, in accordance with Policies CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.

**MC18 (below)**

- The site will be developed in phases in accordance with the master plan. **The Council’s expectation is that the development will initially be progressed as an outline application covering the site as a whole, followed by a series of reserved matters (or full applications) for each phase (or series of phases). This is in order to secure a comprehensive approach to the delivery of the scheme and associated works and contributions.**
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure through CIL and Section 106, as appropriate, in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards improving local services and facilities at Grovehill local centre; and local social and transport infrastructure.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (proposal T/10). The new junction onto the Link Road provides the primary vehicular access and should be in place when development commences.

**MC19 (below)**

- Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewage treatment capacity is available to support the timely delivery of this site.

**MC20 (below)**

- Early liaison required with the SuDS Approval Body (SAB) the local planning authority to ensure appropriate sustainable drainage is planned for designed into the development scheme at the early design stage.
**Policy LA2: Old Town, Hemel Hempstead**

Local Allocation 2 at Old Town as identified on the Policies Map has been released from the Green Belt and will deliver 80 homes.

The key development principles for the site are set out below. Further detail is contained in a site master plan.

### Old Town Vision

The LA2 site will form a new, attractive part of the Old Town area of Hemel Hempstead. Development will be integrated with the existing residential areas to the east and south through maintaining and improving existing pedestrian links to the site and incorporating routes through the new development. New open spaces will be incorporated on site for use by existing and new residents.

Design of new buildings will positively contribute towards the character of the Old Town Conservation Area. There will be a mixture of family and smaller homes. The new area will be designed to be safe and secure and an inclusive community.

### Key Development Principles

The following principles will be used to guide the site master plan and assess the subsequent planning application:

- Provide a mix of house types, including some flats and houses, including 40% affordable homes.
- Take the primary road access (and the secondary access if provided) from Fletcher Way.
- Secure a high quality layout and design that respects the character of the Old Town Conservation Area and the setting of its listed buildings, and takes account of the steeply sloping nature of the site.
- Built form should act as a transition between the Old town and New Town.
- MC21 (below)
- Limit housing to two storeys, except where a higher element would create interest and focal points in the street scene, and would not be harmful to the historic environment.
- Provide around 1 hectare of open space, located mainly on the higher ground adjacent to The Bounce and Townsend.
- Arrange new housing to provide active and attractive frontages to the main area of open space and Fletcher Way.
- Avoid over-domination of parked vehicles in the street scene.
- Provide adequate provision for refuse bins and bicycles within residential properties.
- Respect the landscape setting and character of the site.
- Retain the existing important trees at the top of the hill adjacent to The Bounce and Townsend and as many other trees as possible.
- Soften views of the development from across the valley and open countryside by the use of carefully designed planting.
- Improve the east-west and north-south public footpaths.
**Delivery and Phasing**

- LA2 is scheduled to come forward from 2021, in accordance with Core Strategy Policy CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.
- The site will be developed as a single phase in accordance with the master plan.
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure either through CIL and Section 106, as appropriate, in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards local social and transport infrastructure.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (proposal T/11).

**MC22 (below)**

- Early liaison required with Thames Water to develop a drainage strategy to identify any infrastructure upgrades required in order required to ensure that sufficient sewerage and sewage treatment capacity is available to support the timely delivery of this the site.
MC23 (below)

- Early liaison required with the local planning authority SuDS Approval Body (SAB) to ensure appropriate sustainable drainage is designed into the development scheme at the early design stage planned for at the early design stage.
Policy LA3: West Hemel Hempstead

Local Allocation LA3 at West Hemel Hempstead as identified on the Policies Map will be released from the Green Belt and deliver the following:
- 900 new homes;
- shop, doctors surgery, and additional social and community provision, including a new primary school;
- a traveller site of 7 pitches;
- new open space/playing fields;
- extension of Shrubhill Common Nature Reserve and the creation of wider green infrastructure links.

The key development principles for the site are set out below. Further detail is in a site Master Plan.

West Hemel Hempstead Vision

The new neighbourhood of Pouchen End will be an attractive and distinct place. Its character will reflect the best design principles of the Chilterns area. While separate, the new neighbourhood will be integrated with other parts of the town through the use of shared services, facilities and open space. It will be an inclusive community, designed to be safe and secure. Local needs will be served. A new primary school will be part of the community’s heart and focus. There will be a mix of homes, accommodating both smaller and larger households and family homes. Development will be spacious and will allow views of the countryside across the valley. Open space will permeate the neighbourhood, providing links between Shrubhill Common, the town and the wider countryside.

Key Development Principles

The following principles will be used to guide site master plan and to assess the subsequent planning application:

(a) Homes
- Include a significant proportion of affordable homes (40%).
- Include family homes within a range of provision.

(b) Community Focus
- Provide public spaces in different parts of the development.
- Provide a central focus with a “community square”, hall, shop and other commercial spaces, linked to a bus service.
- Locate the new 2 form entry primary school at the centre

</tbody>
</table>
(h) Countryside
- Soften views of housing from the countryside by use of tree planting, by retaining appropriate tree belts and by the siting open space carefully (particularly in views from Little Heath and Westbrook Hay).
- Provide a soft edge to the countryside and ensure visual and physical separation from Potten End and Winkwell.
- Prevent further vehicular access onto rural lanes.
- Provide pleasant footpath and cycle access through the site to link with Chiltern Way, Hertfordshire Way, the Grand Union Canal and the Chilterns AONB.
- New strategic landscaping to mitigate the impact on the Bulbourne Valley.
- Protect the amenities and character of Pouchen End hamlet.
- Retain hedgerows and trees.
- Use native species in planting schemes.
Delivery and Phasing

- LA3 is scheduled to come forward from 2021 onwards, in accordance with Policies CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.

MC25 (below)

- The site will be developed in multiple phases in accordance with the master plan. The Council’s expectation is that the development will initially be progressed as an outline application covering the site as a whole, followed by a series of reserved matters (or full applications) for each phase (or series of phases). This is in order to secure a comprehensive approach to the delivery of the scheme and associated works and contributions.
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions. The site is proposed as zero CIL rated in the Council’s Draft Charging Schedule. Contributions will therefore be secured through Section 106.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards local social and transport infrastructure, including delivery of a new 2 form entry primary school.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (Proposal T/12), with further detail in the master plan. Long Chaulden and The Avenue are the primary vehicular access points and should be in place when development commences.

MC26 (below)

- Early liaison with Thames Water required to ensure sufficient sewerage and sewage treatment capacity is available to support delivery of the site.
- Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewage treatment capacity is available to support the timely delivery of this site.
- Early liaison required with the SuDS Approval Body (SAB) to ensure appropriate sustainable drainage is planned for at the early design stage.
- Early liaison required with the local planning authority to ensure appropriate sustainable drainage is designed into the development scheme at an early stage.
Policy LA4: Hanburys, Shootersway, Berkhamsted

Local Allocation LA4 at Hanburys as identified on the Policies Map will be released from the Green Belt and deliver 40 new homes.

The key development principles for the site are set out below. Further detail is set out in a site master plan.

Key Development Principles

The following principles will be used to guide the site master plan and assess the subsequent planning application:

- Mitigate the impact on the local road network by supporting sustainable transport measures and improvements to the Shootersway/Kingshill Way junction.
- Ensure sufficient, well-located parking.
- Take the main vehicular access from Shootersway.
- Design internal road access to prevent future expansion of the development into adjoining land (e.g. into the adjoining Haslam Field).
- Focus development around a key green space.
- Design the scheme to a high level of sustainability.
- Limit buildings to 2 storeys normally.
- A mix of homes including 40% affordable.
- Use good quality materials and provide gables to buildings.
- Arrange buildings/routes to achieve natural surveillance, good pedestrian access, and an attractive relationship to open spaces.
- Carefully locate buildings, open space and landscaping so as to respect the setting and security of the neighbouring British Film Institute site. Development should not be located close to the boundary with the BFI site: new housing should back onto the site.
- Meet the Council standards for open space and arrange to ensure a pleasant, coherent and wildlife-friendly network throughout the development that links to adjoining open countryside.
- Design landscaping to allow views out of the site while ensuring secure boundaries.
- Maintain a semi-rural frontage and mature planting to Shootersway.
- Link utilities to existing networks and provide extra capacity where needed to serve the development.
- Create a defensible boundary to the Green Belt and new soft edge to the settlement by enhancing and managing existing landscaping and through careful design and layout.
- Strengthen the boundary to prevent outward expansion of the Green Belt at the western boundary.
- Retain pond feature in line with ecological and drainage requirements.
Site Allocations Pre-Submission document incorporating the Focused Changes 2016

**Indicative Spatial Layout**
- Hanburys existing building retained with new boundary
- Focal point group of trees retained
- Medium density dwellings
- Landscaped open space
- Boundary planting to open countryside retained and reinforced
- Easement for overhead cables
- ‘Green zone’ amenity area
- Road frontage planting retained and reinforced
- Low density detached house or ‘mansion’ apartments
- Medium density dwellings
- Boundary planting with BFI site retained and reinforced
- Retained pond and possibly enhanced as part of SuDS
- Low density dwellings to create a ‘soft edge’ to the existing boundary

**Delivery and Phasing**
- LA4 is scheduled to come forward from 2021, in accordance with Core Strategy Policy CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.

**MC28 (below)**
- The site will be developed as a single phase in accordance with the master plan. The Council’s expectation is that the development will be progressed through a planning application covering the site as a whole. This is in order to secure a comprehensive approach to the delivery of the scheme and associated works and contributions.
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure either through CIL and Section 106, as appropriate, in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards local social and transport infrastructure. Contributions may also be required towards offsetting loss of wildlife resource and early liaison with Hertfordshire County Council (Ecology) is recommended.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (Proposal T/17).
**MC29 (below)**
- Early liaison with Thames Water required to ensure sufficient sewerage and sewage treatment capacity is available to support delivery of the site.
- Early liaison required with Thames Water to develop a Drainage Strategy to identify any infrastructure upgrades required in order to ensure that sufficient sewerage and sewerage treatment capacity is available to support the timely delivery of this site.

**MC30 (below)**
- Early liaison required with the SuDS Approval Body (SAB) to ensure appropriate sustainable drainage is planned for at the early design stage.
- Early liaison required with the local planning authority to ensure appropriate sustainable drainage is designed into the development scheme at an early stage.
Policy LA5: Icknield Way, West of Tring

Local Allocation 5 at Icknield Way as identified on the Policies Map consists of the eastern fields development area which has been released from the Green Belt and the western fields (within the Chilterns Area of Outstanding Natural Beauty) which will remain in the Green Belt. All of LA5 has been released from the Green Belt, except for the western fields open space. LA5 will deliver the following:

- 180-200 new homes in the eastern fields development area,
- An extension with in the eastern fields development area of around 0.75 hectares to the Icknield Way Industrial Estate for B-class uses
- An extension to the cemetery of around 1.6 hectares, in the western fields, and also except for car parking and associated facilities for the cemetery which will be provided in the eastern fields development area.
- A traveller site of 5 pitches in the western fields
- Open space (around 6.5 hectares) in the western fields

The key development principles for the site are set out below. Further detail is contained in a site master plan. Additional guidance on the employment, Gypsies and Travellers, cemetery and open space proposals is included in this Site Allocations document as follows:

- Schedule of Employment Proposals and Sites: Proposal E/1 (extension to Employment Area)
- Policy SA9: Sites for Gypsies and Travellers
- Schedule of Social and Community Proposals and Sites: Proposal C/1 (cemetery extension)
- Schedule of Leisure Proposals and Sites: Proposal L/3 (open space)

West of Tring Vision

The new development will be an attractive place in its own right, providing homes, jobs and open space for the town. Its character and appearance will complement and enhance Tring and the Chilterns AONB. New cemetery space will satisfy the long term need for town burials.

Development will be integrated with the western part of Tring through the use of nearby shopping and other shared services, facilities and open space. Pedestrian and cycle routes will permeate the development. The new development will be an inclusive community, designed to be safe and secure. There will be a mix of homes, accommodating both smaller and larger households and family homes. Development will be spacious and will allow views of the Chiltern Hills.
**Key Development Principles**

The following principles will be used to guide the site master plan and assess the subsequent planning application:

- Provide a mix of house types, including 40% affordable homes.
- Take road access to the development area partly from Aylesbury Road and partly from Icknield Way.
- Limit buildings to two storeys, except where a higher element would create interest and focal points in the street scene particularly to create a central focal point in the development area.
- Provide a legible high quality design, through the use of key buildings, groupings and edges.
- Limit the effect of new building on views from the Chilterns Area of Outstanding Natural Beauty (AONB).
- The layout, design, density and landscaping must create a soft edge and transition with the AONB and secure a defensible long term Green Belt boundary.
- Provide a network of landscaped open space within the development area, including screening of the new employment area.
- Retain existing footpaths (minor diversions acceptable) and provide a footpath/cycleway through the site from Aylesbury Road via Donkey Lane to the A41 roundabout.
- Protect the green and open setting of Tring Cemetery, which is a locally listed historic park or garden.

**MC31 (below)**

Open space will permeate the development area, providing links with the wider countryside. The use and management of most of the western fields for open space will enhance the appearance and enjoyment of the Chilterns AONB. Landscaping will maintain and complement the green gateway and entrance corridor into the town.

**MC32 (below)**

- Locate the cemetery extension in the western fields, west of the new housing on Aylesbury Road, and provide good landscaping and a significant area for natural burials.
- Locate car parking (at least 30 spaces) and other facilities for the cemetery in the development area, adjacent to the cemetery extension.
- Locate the Gypsy site in the western fields. Provide a landscape screen and take road access from Aylesbury Road, west of the cemetery extension.

**MC33 (below)**

- Provide a mix of parkland and informal open space in the western fields and consider the inclusion of pitches for outdoor sports on part of this land.
- Retain and enhance existing hedgerows and tree belts and provide new native tree planting and wildlife habitats in the western fields.
- Provide a toddlers’ play area in the new housing area and a play area for older children in the western fields.
Indicative Spatial Layout

SC8 (below)

Map in previous Pre-submission document:

Amended map:
Delivery and Phasing

- LA5 is available for immediate development, in accordance with Policies CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.

**MC34 (below)**

- The site will be developed in phases in accordance with the master plan. **The Council’s expectation is that the development will be progressed through a planning application covering the site as a whole. This is in order to secure a comprehensive approach to the delivery of the scheme and associated works and contributions.**
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure through CIL and Section 106, as appropriate, in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards improving local social and transport infrastructure – in particular securing delivery of Proposal L/3.
- Delivery of cemetery extension (Proposal C/1) assumed to be via a land purchase by the Council.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (Proposal T/21).

**MC35 (below)**

- Early liaison required with Thames Water to develop a drainage strategy to identify any infrastructure upgrades required in order **required** to ensure that sufficient sewerage and sewage treatment capacity is available to support **the timely** delivery of **this** the site.

**MC36 (below)**

- Early liaison required with the local planning authority SuDS Approval Body (SAB) to ensure appropriate sustainable drainage designed into the development scheme at an early stage planned for at the early design stage.
Policy LA6: Chesham Road and Molyneaux Avenue, Bovingdon

Local Allocation 6 at Chesham Road and Molyneaux Avenue as identified on the Policies Map will be released from the Green Belt and deliver the following:

- 60 new homes
- Open space

The key development principles for the site are set out below. Further detail is in a site master plan.

Key Development Principles

The following principles will be used to guide the site master plan and assess the subsequent planning application:

- Deliver a mix of two storey housing including 40% affordable homes.
- Provide for vehicular access off Molyneaux Avenue with pedestrian access off Chesham Road.
- Incorporate perimeter development with outward facing buildings, dual fronted properties will address corners providing surveillance over areas of open space.
- Limit buildings to two-storey given the height restriction associated with the air traffic control navigation beacon at Bovingdon Airfield.
- Appropriate landscaping to ensure that the development is well screened and that existing trees and hedges are retained where possible. Local species of trees and hedges to be introduced where needed.
- MC37 (below)

- Potential for limited new vehicular crossovers to allow some direct access to properties facing Chesham Road.
- Provide for cycle and pedestrian access to Hyde Lane and Lancaster Drive.
- Layout, design, density and landscaping to relate well to existing housing, create a soft edge with the countryside and secure a strong long term Green Belt boundary.
### Delivery and Phasing

- LA6 is scheduled to come forward from 2021 onwards, in accordance with Policies CS3: Managing Selected Development Sites, SA1: Identified Proposals and Sites, SA8: Local Allocations and the Schedule of Housing Proposals and Sites.
- The site will be developed in a single phase in accordance with the master plan.
- No abnormal costs have been identified that would undermine the ability of this site to provide appropriate contributions towards infrastructure through CIL and Section 106, as appropriate, in accordance with Core Strategy Policy CS35: Infrastructure and Developer Contributions.
- Key planning obligations are set out in the site master plan and will include 40% affordable housing and contributions towards improving local social and transport infrastructure.
- Key off-site transport works are set out in the Schedule of Transport Proposals and Sites (proposal T/23).
Rural Sites for Affordable Housing

6.31 The countryside and smaller villages offer very limited opportunities for both market and affordable housing, but housing needs still exist. Policies for new development in these locations are generally more restrictive in order to safeguard the countryside. Whilst a small number of changes to some of the village envelopes are proposed, these are not of a scale to provide a significant number of new affordable homes.

6.32 Work is continuing with a rural housing enabling agency and Parish Councils to identify small-scale schemes (below 15 homes in each case) for affordable homes, within and adjoining the small villages. Such schemes must be justified by need and continue to safeguard the character of villages and the surrounding countryside. These sites can therefore be treated as exceptions to normal policies operating in the countryside. No specific allocations are identified in order to ensure that when opportunities arise they remain as genuine exceptions for affordable homes.

Gypsy and Travellers and Travelling Showpeople

Gypsy and Travellers

6.33 National policy for Gypsies and Travellers is set out in the Planning Policy for Traveller Sites (March 2012), which accompanies the NPPF. This guidance encourages fair and equal treatment for travellers, and urges local planning authorities to identify need and plan for future provision in appropriate locations. It recognises the sensitivity of new sites in rural areas, particularly the Green Belt, and seeks to limit the number and scale of new traveller site development in open countryside.

6.34 Core Strategy Policies CS21: Existing Accommodation for Travelling Communities and CS22: New Accommodation for Gypsies and Travellers set out how this policy will be applied at the local level. As with conventional housing, the approach is to safeguard existing provision (Table 4). Protection of existing and future sites is essential given the difficulty in identifying sites within and outside of the built-up areas. Both existing sites are owned and managed by Hertfordshire County Council.
Table 4: Existing Authorised Gypsy and Traveller Sites

<table>
<thead>

</tr>
<tr>
<td>Cheddington Lane, Long Marston</td>
<td>6</td>
</tr>
<tr>
<td>Total</td>
<td>36</td>
</tr>
</tbody>
</table>

6.35 A Traveller Needs Assessment has been completed\(^\text{20}\) for both Gypsy and Travellers and travelling showpeople. It identified a need for 17 new pitches to address natural growth of Gypsy and Travellers already resident in the Borough over the lifetime of the plan. These needs will be met through the provision of suitable sites through the plan process. Potential locations have been suggested and assessed through technical work and consultation with the Gypsy Community, their representatives and the wider community.

6.36 The Traveller Needs Assessment advises that the best way to accommodate sites is as part of larger housing developments. This approach will aid integration of sites with the settled community; reduce the marginalisation of the travelling communities and ensure occupants of the sites have good access to local services and facilities such as health and education.

6.37 New pitches will be provided as part of the three largest Local Allocations (see Policies LA1: Marchmont Farm, LA3: West Hemel Hempstead and LA5: Icknield Way, west of Tring). Splitting provision over these three sites will help ensure that the needs of both Irish Travellers and Romany Gypsies are met and that sites can remain small-scale. The precise location and design of the new sites will be guided by the relevant site master plans.

6.38 Local Allocation LA5: Icknield Way, west of Tring is available for delivery at any time (see Part 1 of the Schedule of Housing Proposals and Sites). The Council will consider the need to bring forward the Gypsy and Traveller pitches on either LA1: Marchmont Farm or LA3: West Hemel Hempstead earlier than currently programmed (i.e. before 2021), should provision be required to ensure a 5 year supply of pitches. Decisions on such action will be informed by the Annual Monitoring Report process.

6.39 Careful consideration will be given to planning applications on appropriate sites outside of the Local Allocations where they satisfy the requirements of the Planning Policy for Traveller Sites and local criteria set out in Policy CS22: New Accommodation for Gypsies and Travellers. Opportunities for such sites are likely to be limited due to the importance placed by Government on safeguarding the Green Belt (and the countryside) from development, even where unmet need exists.

6.40 Transit sites perform an important role for Gypsy and Traveller households who are visiting or passing through an area on the way to somewhere else. There is only one transit site in the County which is located at South Mimms in Hertsmere. The key issue for determining if there is a requirement for an

---

\(^{20}\) Dacorum Borough Council and Three Rivers District Council Traveller Needs Assessment (January 2013)
additional transit site is whether there is evidence of sufficient travelling through the area. There is little evidence of unauthorised encampments in Dacorum between 2008 and 2012. The needs assessment concludes that there is no identified need for a transit site in Dacorum. Therefore, the Site Allocations DPD does not identify land for this purpose.

**Travelling Showpeople**

6.41 Existing accommodation for travelling showpeople will be protected. The Traveller Needs Assessment concluded that the demand for new plots for showpeople was very limited. This growth can therefore be accommodated on existing sites by making more efficient use of land, or through very small-scale expansion. Additional plots to accommodate the growth of this specific travelling group are therefore not required or allocated.

**POLICY SA9: Sites for Gypsies and Travellers**

New accommodation for Gypsies and Travellers will be provided as part of Local Allocations LA1, LA3 and LA5:

<table>
<thead>
<tr>
<th>Site Reference</th>
<th>Site</th>
<th>Number of Pitches</th>
</tr>
</thead>
<tbody>
<tr>
<td>LA1</td>
<td>Marchmont Farm, Hemel Hempstead</td>
<td>5</td>
</tr>
<tr>
<td>LA3</td>
<td>West Hemel Hempstead</td>
<td>7</td>
</tr>
<tr>
<td>LA5</td>
<td>Icknield Way, west of Tring</td>
<td>5</td>
</tr>
</tbody>
</table>

Applications for additional sites will be determined in accordance with Core Strategy Policy CS22: New Accommodation for Gypsies and Travellers, and other relevant policies and guidance.

All new pitches should meet the criteria of Policy CS22 and, where appropriate, satisfy any specific site requirements under Policies LA1, LA3 and LA5 and associated master plans.

**Schedule of Housing Proposals and Sites**

**Notes†:**

1) Sites in the schedule have a total net capacity of 3,685 homes.
2) The base date for the schedule is 1st April 2014, with any updates regarding progress as at 1st April 2014 set out in the planning requirements.
3) Since 1st April 2014 some sites are already partly subject to planning applications.
4) Where the capacity is presented as a range, the upper range has been taken for the purposes of calculating total net capacity.
5) Some sites will be delivered as part of a mixed use development and are shown as mixed use allocations in the schedule.
6) Not all sites justify planning requirement and, where appropriate, only key requirements are highlighted. Other requirements may arise through the planning application process.
7) Net capacity may change as schemes are advanced or subject to further investigation.
8) Area specified for Local Allocations is the total site area. The net developable area will be lower.
9) Delivery of Local Allocation LA5: Icknield Way, West of Tring will take place following removal of the site from the Green Belt.

†tbc on completion of 2014/15 monitoring information
PART 1. SITES PROPOSED FOR DEVELOPMENT IN THE PLAN PERIOD THAT CAN BE BROUGHT FORWARD AT ANY TIME

Sites in the Part 1 Schedule have a total net capacity of 2,255 homes.

(a) Housing Allocations

Sites in this schedule have a total net capacity of 800 homes.

#### Proposal H/22 H/19

| Location: | Corner of Hicks Road / High Street |
| Site Area: (Ha) | 0.12 |
| Net Capacity: | 10-15 |
| Planning Requirements: | High quality scheme required given location in Conservation Area. Predominantly two storey houses or flats to be provided. *131 High Street is of heritage merit, and the possibility of retaining the building as an option should be explored. Flood risk assessment required.* |

7. **Meeting Community Needs**

**Introduction**

7.1 Future development should meet the needs of new and existing communities and create a sustainable balance between housing, jobs and social infrastructure. The National Planning Policy Framework (NPPF) supports the delivery of sufficient community and cultural facilities and services to meet local needs. It urges close working with relevant agencies, to guard against the unnecessary loss of facilities and services, and to understand and plan positively for new facilities.

7.2 Figure 14 in the Core Strategy explains that social infrastructure covers a wide variety of social and community and leisure facilities. The evidence base includes an Infrastructure Delivery Plan\(^{21}\) which has played a key role in identifying social infrastructure needs over the plan period. The Council continues to work closely with primary agencies to ensure sufficient facilities are planned and delivered.

7.3 Some needs will be met through the delivery of the Local Allocations linked to the provision of large greenfield housing development, and via the Strategic Sites (see Core Strategy Table 9: Strategic Sites and Local Allocations).

**Table 5: Contribution to Social Infrastructure from Local Allocations and Strategic Sites**

The mixed use Strategic Site in Markyate (SS2) is already being brought forward and will deliver a replacement surgery for the village.

---

\(^{21}\) Infrastructure Delivery Plan Update, June 2015.
7.4 Policy CS33: Hemel Hempstead Town Centre, and the associated master plan, have highlighted the need for a range of new facilities within Hemel Hempstead town centre and informed decisions on allocations. Much of the new provision is linked to the town centre redevelopment to deliver the Public Service Quarter (including replacement Civic Centre and library) and new college campus. See the Schedule of Mixed Use Proposals and Sites for further details.

**Social and Community facilities**

7.5 The Core Strategy seeks to protect existing uses unless replaced or is demonstrated they are no longer required or viable. Additional sites are allocated to meet key additional requirements and needs. Existing unimplemented proposals are retained where appropriate.

7.6 The master plan identifies the importance of the Hospital Zone in securing a replacement local general hospital and new 2 form entry primary school, alongside housing. The County Council, in partnership with the Hospital Trust, have prepared a feasibility study for the site, principally to explore the most appropriate location for the primary school. The Trust is yet to confirm their requirements and preferred option for hospital provision. A development brief is required to coordinate delivery of uses across the site, and to determine the precise scale and configuration of uses. Further details are included in the Schedule of Mixed Use Proposals and Sites.

**MC60 (below)**

7.7 Most new school places within the Borough (both primary and secondary) can be accommodated through the expansion of existing schools (and the reopening of a former school at Jupiter Drive, Hemel Hempstead). The forecast needs for school places in Tring can be met through expanding Tring Secondary School (including the provision of detached playing fields) and by expanding Dundale and Grove Road primary schools.

7.8 The Major Developed Site (MDS) designations covering the secondary schools at Ashlyns School, Berkhamsted, and Kings Langley provides some flexibility to accommodate new and upgraded facilities (see section 3, Policy SA2 Major Developed Sites in the Green Belt, and accompanying Schedule of Major Developed Sites).

7.9 The Core Strategy identifies two education zones in the Green Belt around Berkhamsted (as shown on the Vision Diagram in the Place Strategy). These have been carried forward onto the Policies Map to allow the County Council the necessary flexibility to plan for future growth in school places, and accommodate the change from a three to two tier education system. A similar approach is followed in the Green Belt in the Nash Mills area of Hemel Hempstead. A new education zone, grouped around Red Lion Lane, has been identified to meet the need for additional primary school places in the south east of the town. Education Zones will define ‘areas of search’ for new primary school sites and allow the detailed feasibility of site options to be explored in more detail by the education authority.
7.10 The need for additional school provision to serve future housing in north east Hemel Hempstead will be considered through the Area Action Plan. Phase 2 of the Spencer’s Park development will incorporate a new 2 form entry primary school to meet the needs of the local community.

7.11 Future pupil demands across the Borough will continue to be modelled and any changes in needs identified in annual updates to the Infrastructure Delivery Plan.

**POLICY SA10: Education Zones**

**SC9 (below)**

Education Zones are shown on the Policies Map for Nash Mills, Hemel Hempstead and Berkhamsted.

In accordance with Policy CS23: Social Infrastructure, a flexible approach will be taken to support delivery of new primary schools and provision of facilities ancillary to education uses in these areas, provided:

(a) there is clear evidence of local need; and

(b) no suitable alternative sites are available.

Planning Requirements: Provision of detached extension to Tring Cemetery. Access from Aylesbury Road. Site to be well landscaped (particularly along its boundaries), appropriate to its location within the Chilterns Area of Outstanding Natural Beauty – design details to be discussed with the Chilterns Conservation Board to ensure the proposal does not have an adverse effect on the AONB and its setting. Undertake protected species surveys and incorporate appropriate requirements into any planning application to ensure there would be no adverse impacts. To also include appropriate parking area (of at least 30 spaces) and ancillary building and yard within the adjacent development area (i.e. land excluded from the Green Belt) to meet service needs.

Countryside MC64 (below)
Proposal C/2
Location: Amaravati Buddhist Monastery, St Margarets Lane, Great Gaddesden
Site Area: (Ha) 3.0
Planning Requirements: Phased approach to redevelopment of existing previously developed part of the site. The design, layout and scale of development to be guided by its sensitive location in the Chilterns Area of Outstanding Natural Beauty, open setting, and the ability of St Margarets Lane to serve the site. Advice to be sought from the Chilterns Conservation Board at the design stage and including taking account of the Chilterns Building Design Guide and associated Technical Guidance Notes. Existing landscaping to be retained and, where appropriate, enhanced. Replacement of some of the existing buildings within the previously developed part of the site is acceptable provided they are of a high quality of design. Significant intensification of current activities on the site will not be acceptable.

Leisure and Cultural Facilities
MC67 (below)
7.12 The Borough contains a variety of leisure space and facilities which will be safeguarded. Technical work has been used to assess the condition and use of existing outdoor playing pitches within Dacorum. The resulting Playing Pitch Strategy and Action Plan formulates sport-specific recommendations based on the assessed supply and demand for improvements to and/or new playing pitches required within the Borough, scale and nature of any future needs, both in terms of indoor facilities and outdoor pitches. This work does not highlight the need for any additional designations over and above those listed in the Schedule of Leisure Proposals and Sites and provided by the larger Local Allocations and the Strategic Site at Berkhamsted (see Table 5).
7.13 There is flexibility in policies to allow for new pitches to come forward within open spaces and the Green Belt should future needs arise and resources allow. The Action Plan which supplements the Outdoor Leisure Facilities Study also explores how more effective use can be made of existing provision.

7.14 The provision of a new community sports facility for Hemel Hempstead to support possible residential expansion to the east of the town will be considered through the East Hemel Hempstead Area Action Plan. This facility may free up existing leisure facilities for other leisure uses or alternative development.

7.15 Open land of 1 hectare or more in urban areas are specifically designated on Policies Map. They provide for sports and play facilities, are an integral part of the character of each town and village, and are a valuable biodiversity resource. Open land (both designated and undesignated) will continue to be protected and enhanced.

7.16 Existing open land areas have been reviewed and suggestions for new areas arising through technical work and public consultation assessed. Some new designations are justified where they satisfy the threshold and/or they make a significant contribution to the form and character of settlements (e.g. as landscape features, neighbourhood space, and green chains, etc.). It is impractical to formally designate smaller green spaces and unnecessary when the land is already protected from development by other designations.

### Tring
#### MC68 (below)

| Proposal L/3 |
|-----------------------------|-------------------------------------------------------------|
| Location: | Land west of Local Allocation LA5: Icknield Way |
| Site Area: (Ha) | 6.5 |
| Planning Requirements: | Proposal linked to bringing forward public open space as part of Local Allocation LA5. Provide an east-west footpath / cycleway from the development area to the A41 roundabout. Provide a mix of parkland and informal open space and consider inclusion of pitches for outdoor sports. Retain and enhance existing hedgerows and tree belts and provide new native tree planting and wildlife habitats. Provide a neighbourhood equipped play area. Design details to be discussed with the Chilterns Conservation Board to ensure the proposal does not have an adverse effect on the AONB and its setting. See site master plan. |

### SC10 (below)

| Proposal L/4 |
|-----------------------------|-------------------------------------------------------------|
| Location | Dunsley Farm, London Road, Tring |
| Site Area (Ha): | 2.7 |
| Planning Requirements: | Proposal linked to the potential future redevelopment of Tring Secondary School to make provisions for detached playing fields in the event that they should be required as result of the school’s physical expansion. The site should provide sufficient space for playing pitches for outdoor sports in order to meet the school’s requirements and Sport England standards. These playing pitches will also be made available for community use. |

See section 7 of the accompanying Map Book
Looking after the Environment

Strategic Objectives

- To protect and enhance Dacorum’s distinctive landscape character, open spaces, biological and geological diversity and historic environment.

- To promote the use of renewable resources, reduce carbon emissions, protect natural resources and reduce waste.

- To protect people and property from flooding.

- To minimise the effects of pollution on people and the environment.
Introduction

8.1 Dacorum’s Core Strategy sets a clear strategic policy framework through which to consider proposals which affect the natural and historic environment, in accordance with the NPPF.

8.2 Not all designations relating to the natural and historic environment are determined as part of the development plan process (see Table 6). Some, such as the designation of Listed Buildings and Scheduled Monuments, and the definition of land within Areas of Outstanding Natural Beauty, are controlled through separate legislation. However, in order to give a complete picture of potential development constraints, it is good practice to include these designations on the Policies Map (as matters of fact).

8.3 Table 6 also highlights those designations that are shown on Dacorum’s Local Planning Framework Policies Map and those that will be illustrated elsewhere e.g. through supplementary advice and guidance.

*Denotes designations that are identified under separate legislation.
8. Enhancing the Natural Environment

Protecting and Improving the Landscape

8.4 The NPPF requires the planning system to contribute to and enhance the natural and local environment by ‘protecting and enhancing valued landscapes...’ (Paragraph 109).

8.5 The process of landscape characterisation and assessment has been developed through the work of Natural England and their predecessors, English Nature and the Countryside Agency. Thirty different Landscape Character Areas have been identified in the Landscape Character Assessment for Dacorum (May 2004), which has been adopted as supplementary planning guidance by the Council.

8.6 The Chilterns are an area of national landscape importance, being designated by the Countryside Commission (now part of Natural England) as an area of Outstanding Natural Beauty (AONB) in 1964. The designation affords special status in the control of development and establishes the primary aim as the conservation and enhancement of the scenic beauty of its countryside and settlements.

8.7 Changes to the AONB boundary can only be made by Natural England, following consultation with the Chilterns Conservation Board and other key stakeholders, such as the local planning authorities within the AONB.

8.8 Dacorum’s landscape will be protected in accordance with Core Strategy Policies CS24: The Chilterns Area of Outstanding Natural Beauty, CS25: Landscape Character, and other relevant policies and guidance. The extent of the Chilterns Area of Outstanding Natural Beauty (AONB) is shown on the Policies Map. This map will be updated in the light of any future boundary changes confirmed by Natural England.

Biodiversity and Geological Conservation

8.9 Figure 15 of the Core Strategy sets out the hierarchy for biological and geological designations within the Borough. These range from those designated at an international level, such as the Chiltern Beechwoods Special Area of Conservation, to locally designated nature reserves.

8.10 Both statutory and non-statutory designations are regularly reviewed by the responsible bodies: including the Council, Local Nature Partnership and Natural England. As habitats change and species migrate, the number of sites and their precise areas change over time. The Policies Map will be updated over time where necessary. Information regarding the most up-to-date site schedules is available from the Council. The current list of sites is set out in Appendix 5.

8.11 Special Areas of Conservation (SACs), also known as Natural 2000 sites, are designated under the European Union’s Habitats Directive. The designation
applies to sites identified as being of especial European significance that should be protected for their wildlife and habitat value. Within Dacorum, the SAC designation applies to two areas of Chiltern Beechwoods.

8.12 Sites of Special Scientific Interest (SSSIs) are designated by Natural England. They comprise land which is nationally important in terms of its flora, fauna or geology. The SSSI designation sometimes applies to sites which are also subject to local designations, such as Wildlife Sites, Regionally Important Geological Sites (RIGS), or Local Nature Reserves.

8.13 There are over 230 Wildlife Sites within the Borough, covering meadows, ponds, woodland, urban green space and geological sites. Important geological or geomorphological features are also designated as RIGS. Advice on the designation of both Wildlife Sites and RIGS is provided by the Hertfordshire Local Wildlife Sites Partnership (HLWSP), which forms part of the Hertfordshire Local Nature Partnership (LNP). Designations are reviewed and updated annually.

8.14 Ancient woodland is a nationally important and threatened habitat, and its existence over hundreds of years has enabled irreplaceable ecological and historical features to survive. Ancient woodland in England is defined by Natural England as an area that has been wooded continuously since at least 1600AD. It includes plantations on ancient woodland sites. Dacorum’s ancient woodland was surveyed and an updated inventory prepared in 2012 as part of a wider survey of ancient woodland carried out for the whole of the Chilterns AONB area. Many areas of ancient woodland are also designated as Wildlife Sites and/or SSSIs.

8.15 Local Nature Reserves (LNRs) are areas identified as having wildlife or geological features that are of special interest locally. They often overlap with other designations, such as SSSIs, Wildlife Sites and RIGs. Local Nature Reserves are places for both people and wildlife. To qualify for LNR status, a site must be of importance for wildlife, geology, education or public enjoyment.

See section 8 of the accompanying Map Book
9. **Conserving the Historic Environment**

9.1 Sites, buildings and finds with historic and archaeological interest form an important part of Dacorum’s heritage. These are valuable culturally, educationally, as recreational attractions and as features of local pride and interest. Designations of particular importance to the Borough’s town and large villages are highlighted within the Place Strategies in the Core Strategy. These heritage assets are protected through planning policies to ensure they are not needlessly or thoughtlessly destroyed.

9.2 Heritage England, the Historic Buildings and Monuments Commission for England, Hertfordshire County Council’s Historic Environment Unit and Dacorum Borough Council are involved in making the relevant designations, advised by specialist organisations such as the Hertfordshire Gardens Trust. Lists of current designations are contained in Appendix 5.

9.3 ‘Scheduling’ is shorthand for the process through which nationally important sites and monuments are given legal protection by being placed on a list. This list is maintained and updated by Heritage England. There are currently over 30 Scheduled Monuments within Dacorum. However, there are a number of known sites (currently un-scheduled), which are worthy of designation, and further sites may be identified in the future.

9.4 A ‘Register of Parks and Gardens of Special Historic Interest in England’ is compiled and maintained by Heritage England. Designation takes account of factors such as the site’s layout and features, its rarity as an example of historic landscape design and the quality of the landscaping. There are 4 nationally registered sites within Dacorum. The Council has also defined 14 locally registered Historic Parks and Gardens, based on specialist advice received from the Hertfordshire Gardens Trust. Both national and local registration helps ensure that special consideration is given to the historic landscape as part of the planning process.

9.5 Areas of Archaeological Significance (AASs) are places within the Borough deemed to be of moderate or high archaeological potential. Their designation is based on evidence from known heritage assets (buildings, sites, features and finds) held by the Hertfordshire Historic Environment Record (HER). This does not mean that areas outside the AASs are without archaeological potential.

9.6 The HER is a dynamic dataset, which is updated constantly to reflect new discoveries within Hertfordshire. This data is available to view on the ‘Heritage Gateway’ (www.heritage-gateway.org.uk). From time to time alterations to existing AASs, or identification of new AASs will be required to reflect new data or understanding of significance. These areas will be subject to the same requirements as those identified on the Policies Map, and the Policies Map itself will be updated from time to time to reflect these changes.

9.7 Planning policy does not necessarily prevent new development within AASs. Each application is assessed in light of its size, position and design to
determine the likely level of impact on the historic environment, and what, if any, mitigation is required.

9.8 There are currently 23 Conservation Areas within Dacorum. The Council keeps the boundaries of these areas under review through a process of Conservation Area Appraisals (see Appendix 5). This process will:

a) Recommend if any changes are required to the extent of existing Conservation Area boundaries;

b) Consider if any additional buildings within the Conservation Areas should be considered for local listing or identification as ‘heritage assets’; and

c) Provide detailed guidance to help inform planning decisions within the areas.

9.9 In addition to statutory Listed Buildings, the Council is drawing up a List of Locally Listed Buildings and other heritage assets. This will be updated from time to time. The Policies Map does not show individual buildings.

101
Place Strategies
10. Introduction to Place Strategies

10.1 Place strategies have been prepared for each of the Borough’s towns and large villages, together with the wider countryside. The role of these strategies is to take forward the settlement hierarchy and broad planning policies, and highlight particular characteristics and future requirements for each place. These requirements range from the provision of particular items of infrastructure to the protection or enhancement of key features or character that give the place its unique identity.

10.2 The policies, proposals and designations within the Site Allocations DPD will help to deliver both the shared local objectives set out in the Core Strategy and those specific to each place. These shared local objectives are as follows:

- Accommodate growth which promotes sustainable patterns of development.
- Secure more affordable housing and a balanced mix of housing types.
- Ensure new housing is balanced by school capacity and matched by additional community facilities and local infrastructure.
- Provide a variety of employment opportunities for local people.
- Maintain and enhance the character, built heritage, natural environment and leisure assets of each settlement and the wider countryside.
- Safeguard existing leisure assets such as open space, outdoor leisure space, rivers and the Grand Union Canal and create stronger green links throughout the borough.
- Support the retention of existing services, facilities and jobs.
- Improve access for pedestrians, cyclists, users of passenger transport and motorists to services, facilities and places of work and leisure.
- Reduce peak-time traffic congestion and its effects.
11. Hemel Hempstead Place Strategy

Introduction

11.1 Hemel Hempstead is the main centre for development and change within the Borough. It is the focus for housing development, regeneration and employment growth. The visions for the town, the town centre and East Hemel Hempstead area are set out in the Core Strategy. The Local Objectives, the Hemel Hempstead Town Centre Master Plan, Policy CS33 Hemel Hempstead Town Centre, and Policy CS34 Maylands Business Park establish the detailed principles for proposed development to be assessed against. The Schedule of proposals, sites and schemes for Hemel Hempstead is the most significant for all the Place Strategies, indicating the important role that this town has in delivering new development.

Schedule

11.2 The schedule below incorporates the proposals and sites relating to Hemel Hempstead as identified in the Sections 2 to 9 of this document. It does not include any sites carried forward from the Dacorum Borough Local Plan 1991-2011 within the East Hemel Hempstead Area Action Plan.

  • Former Halsey School playing field

Place Map

11.3 The following Place Map for Hemel Hempstead builds on the general principles in the Vision Diagrams for Hemel Hempstead in the Core Strategy. It illustrates only new or amended allocations. The town centre and south Hemel Hempstead areas are shown as an inset map for clarity. Reference numbers relate to the sites above.
12. Berkhamsted Place Strategy

Introduction

12.1 Berkhamsted is a market town and has an important role in meeting housing needs and employment opportunities. The vision for the town is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against. The town has a number of key proposals relating to a wide range of uses and infrastructure with particular reference to the Local Allocation at Hanburys and the Old Orchard, and the Strategic Site at Egerton Rothesay School. The boundaries have been defined for the additional Major Developed Site at the British Film Institute, which is located on the south side of the town.

Schedule

12.2 The schedule below incorporates the sites and proposals relating to Berkhamsted as identified in the Sections 2 to 9 of this document.

Place Map

12.3 The following Place Map builds on the general principles in the Vision Diagrams for Berkhamsted in the Core Strategy. It includes only new or amended allocations.
13. Tring Place Strategy

Introduction

13.1 Tring is the Borough’s third largest town and plays an important role in meeting local housing needs and providing employment opportunities. The vision for the town is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against. Three housing proposals and LA5: land west of Tring are included in the schedule for Tring, together with several other development proposals and designations to support new homes and employment opportunities.

Schedule

13.2 The schedule below incorporates the sites and proposals relating to Tring as identified in the Sections 2 to 9 of this document.

Schedule for Tring

New Locally Registered Park or Garden of Historic Interest
- Pendley Manor
- Tring Cemetery

Place Map

13.3 The following Place Map builds on the general principles in the Vision Diagram for Tring in the Core Strategy and includes only new or amended allocations.
14. Kings Langley Place Strategy

Introduction

14.1 Kings Langley is a large village located in the south east of the Borough adjoining Three Rivers district. It has the role of providing for housing, and the general approach is to support development that enables the population to remain stable and support community needs. The vision for Kings Langley is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against. Kings Langley Secondary School on the edge of the village is designated as a Major Developed Site in the Green Belt and is due to be redeveloped to improve its facilities. The only other designation affecting the village is a small housing proposal.

Schedule

14.2 The schedule below incorporate the sites and proposals relating to Kings Langley as identified in the Sections 2 to 9 of this document.

Schedule for Kings Langley

<table>

Place Map

14.3 The following Place Map builds on the general principles in the Vision Diagram for Kings Langley in the Core Strategy. It includes only new or amended allocations.
15. Bovingdon Place Strategy

Introduction

15.1 Bovingdon is a large village surrounded by Green Belt countryside. It has the role of providing for housing, and the general approach is to support development that enables the population to remain stable and support community needs. The vision for Bovingdon is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against. Bovingdon includes LA6 (Chesham Road/Molyneaux Avenue), and is close to two Major Developed Sites in the Green Belt.

Schedule

15.2 The schedule below incorporate the proposed sites relating to Bovingdon as identified in the Sections 2 to 9 of this document.

Schedule for Bovingdon

- GB/15 Land at Church Street

Place Map

15.3 The following Place Map builds on the general principles in the Vision Diagrams for Bovingdon in the Core Strategy. It includes only new or amended allocations.
16. Markyate Place Strategy

Introduction

16.1 Markyate is a large village in north east of the Borough. It has the role of providing for housing, and the general approach is to support development that enables the population to remain stable and support community needs. The vision for Markyate is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against.

Schedule

17. **Countryside Place Strategy**

**Introduction**

17.1 The countryside in Dacorum forms about 85% of the area of the Borough. There are seven small villages that are ‘washed over’ by Green Belt or Rural Area designation. A large part of the countryside falls within the Chilterns Area of Outstanding Natural Beauty. Agriculture has a significant role of the countryside in Dacorum. The vision for the countryside is set out in the Core Strategy, and the Local Objectives establish the detailed principles for proposed development to be assessed against.

**Schedule**

17.2 The schedule below incorporate the sites and proposals relating to the Countryside as identified in the Sections 2 to 9 of this document.

PART C

IMPLEMENTATION AND DELIVERY
Site Allocations Pre-Submission document incorporating the Focused Changes 2016
Implementation and Delivery

**Strategic objectives**

- To co-ordinate the delivery of new infrastructure with development
- To ensure that all development contributes appropriately to local and strategic infrastructure requirements
18. Monitoring and Review

Introduction

18.1 Effective monitoring and review is critical to understanding the effectiveness of policies and proposals within the Council’s local plan. It helps identify progress in delivering Borough targets and objectives, and the local objectives that sit beneath these. Monitoring also shows how and where different types of development are being delivered, for example, the extent of additions and losses of floorspace in key areas such as employment areas and town centres.

The Monitoring Framework

18.2 The Core Strategy has put an extensive monitoring framework and delivery strategy in place. This includes a comprehensive list of monitoring indicators and targets. Policies and proposals within the Site Allocations document will be assessed against these indicators and targets. No additional indicators or targets are proposed.

18.3 The Council produces a regular monitoring report, known as the Annual Monitoring Report (AMR), containing information on a range of issues, including the implementation and performance of planning policies. The information in Dacorum’s AMR will be used to monitor the delivery of the site specific proposals, associated targets and phasing. The AMR will also be used when assessing the effectiveness of individual policies and approaches, and will help inform the forthcoming plan review (see below).

18.4 The AMR is informed by housing and employment land position statements which set out detailed information on permissions, starts and completions. These statements include data on both large sites (i.e. those allocated within the Schedules of Proposals and Sites), smaller sites that fall below size thresholds identified in the Sites Allocation document and other future (windfall) development.

18.5 Housing delivery is perhaps the most critical indicator to measure for two key reasons. Firstly, to demonstrate how the allocations and other sites (i.e. windfall sites) are contributing to the Core Strategy housing target. Secondly, to demonstrate a clear, identified and deliverable supply of housing sites for a rolling 5 year period. This involves monitoring against the Council’s housing trajectory and considering whether any additional sites need to be brought forward to achieve the overall requirement. Indicators also show whether other related objectives are being met. This includes delivering sufficient affordable housing and ensuring that the mix of dwelling types reflects local needs.

18.6 Most development sites are expected to be delivered through the private market. In the event that monitoring indicates that sites are not progressing as expected, the Council will engage with landowners and developers to understand the delivery issues involved. With regard to the Local Allocations, Core Strategy Policy CS3: Managing Selected Development Sites, allows
these sites to be brought forward in advance of their current delivery date, should certain criteria be met.

**Infrastructure and Developer Contributions**

18.7 All development, whether identified or unidentified (windfall), will be expected to accord with Core Strategy Policy CS35: Infrastructure and Developer Contributions.

18.8 Specific requirements relating to individual development sites are set out in the relevant polices and schedules.
Appendix 1: Updated Schedule of Superseded Policies

The Dacorum Borough Local Plan 1991-2011 is being replaced in phases. The Dacorum Borough Local Plan policies that have been superseded are listed in the left hand column below. The policies from the Core Strategy and/or Site Allocations DPDs that replace them are listed in the right hand column. Core Strategy policies are denoted by a ‘CS’ prefix. Site Allocations policies are denoted by either a ‘SA’ or ‘LA’ prefix.

Where Dacorum Borough Local Plan policies are in-effect part superseded, they are listed as ‘saved.’ However, they will be considered in the context of the more up-to-date Core Strategy and/or Site Allocation and the NPPF where appropriate.

Note: Policy 27: Gypsy sites was not ‘saved’ under the 2004 Act transitional arrangements.

Appendix 5: Schedules of Designated Biological, Geological and Historic Assets

Note: The following lists are correct as at April 2014. The Policies Map will be updated at regular intervals to reflect any subsequent changes. Please contact the Council for the most up-to-date position.

Landscape, Biological and Geological Designations:

Sites of Special Scientific Interest:

- Aldbury Nowers
- Alpine Meadow, near Brick Kiln Cottage, Berkhamsted
- Ashridge Common and Woods
- Little Heath Pit (Geological)
- Oddy Hill and Tring Park
- Roughdown Common
- Tring Reservoirs
- Tring Woodlands

Local Nature Reserves (LNRs)

Note: Bracketed text specifies current management arrangements.

- Alpine Meadow (Wildlife Trust)
- Long Deans, Hemel Hempstead (Wildlife Trust)
- Wilstone Reservoir (Wildlife Trust)
- Shrub Hill Common Local Nature Reserve, Hemel Hempstead
- Aldbury Nowere, Duchies Piece (Wildlife Trust)
- Howe Grove Local Nature Reserve, Hemel Hempstead

Regionally Important Geological Sites (RIGS)

- Pingoes on Boxmoor;
- Puddingstone boulders at Castle Hill, Berkhamsted;
- Tring Park (dry valley morphology); and
- Bourne gutter (winterbourne and hydrology).

Wildlife Sites

There are currently 233 wildlife sites, covering just over 2027 hectares. A full schedule is available from the Hertfordshire Environmental Records Centre http://www.hercinfo.org.uk/.

Conservation Areas

- Hemel Hempstead Old Town
- Berkhamsted

Appendix 6: Glossary Update

The following updates the full glossary contained in Appendix 4 of the Core Strategy.

<table>
<thead>
<tr>
<th>Key Shopping Area</th>
<th>Also referred to as the ‘Primary Shopping Area’; see NPPF (Paragraph 2.3 and Annex 2)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Primary Frontage</td>
<td>The primary frontage denotes the retail core, where an active and vibrant retail offer will be promoted.</td>
</tr>
<tr>
<td>Secondary Frontage</td>
<td>Secondary frontages are also important to the overall vitality and viability of the centres and have a more diverse range of retail and complementary uses.</td>
</tr>
<tr>
<td>Sustainable Urban Drainage (SuDS)</td>
<td>Sustainable Urban Drainage systems (SuDS) mimic natural drainage from a site and enable rainwater to run back into natural systems, rather than the stormwater drainage network. SUDS also treat run-off water to remove</td>
</tr>
<tr>
<td>LEAP / NEAP</td>
<td>Local and Neighbourhood Equipped Area for Play that relate to a minimum standards of Provision (see DBLP Appendix 6)</td>
</tr>
</tbody>
</table>
